WASHINGTON, Jan. 14—Seeking a reprieve from the "death sentence" passed on the nation's automobile dealers by the OPM order forbidding new car manufacture, the House Small Business Committee today called on Price Administrator Leon Henderson and Floyd Odium, director of contract distribution, to discuss relief measures.

The government officials were called as it was reported that a "short-range" program has been worked out by the OPA for rationing frozen stocks and this month's production in a way that will help the dealers.

L. Clare Cargile, president of the National Automobile Dealers Association, said that negotiations on the plan have been "very satisfactory." He urged that the government permit delivery of all orders dated prior to January 1, that price ceilings be fixed to give the dealers a fair return, that all autos and trucks produced except those for direct military use be handled through the dealers, and that the government agree to pay standard retail prices for its purchases of autos.

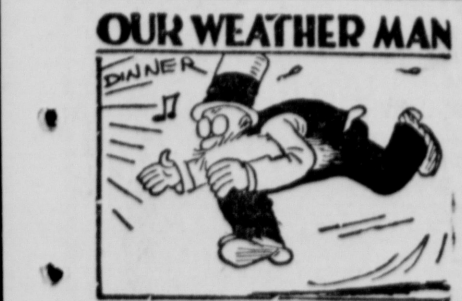

The OPM, meanwhile, extended the ban on sale of new automobiles, trucks and truck trailers to February 2 to allow more time for working out and putting into effect the rationing system. Sale of new cars originally was frozen until tomorrow.

Details of the rationing plan probably will be completed within a few days, the OPM said, and in order to fully acquaint the public (Continued on Page Two)

FRIDAY MAY END FUND CAMPAIGN IN LOCAL AREA

Pickaway County's Red Cross campaign for War Relief funds should be complete by Friday, Carl C. Leist, chairman of the local chapter, said Wednesday. Funds now total nearly \$11,000, he said, and most of the local workers have completed their solicitation.

As soon as the campaign closes, eighty-five percent of the money will be sent to National Red Cross Headquarters in Washington to be used for the relief of American soldiers and their families. The remaining 15 percent will be used for Red Cross work in Circleville and Pickaway County.

Nazi No. 4 Tipped Off Reich Plot

Slip Sent Karl Boemer
Into Dreaded Berlin
People's Court

(Editor's Note: Here, for the first time, is one of the most astonishing stories in the history of Nazi Germany, the indiscretion of a man who was "Number 4 Big Shot" in the Nazi regime, who inadvertently tipped off Stalin that the Reich was going to attack Russia. The story is told in four installments by Pierre J. Huss, for eight years chief Berlin correspondent of International News Service, as the current chapter in his dramatic series on "Hitler Unmasked.")

By Pierre J. Huss
INS Staff Correspondent
NEW YORK, Jan. 14—There is a short but dignified avenue in Berlin leading from the busy Potsdamer Platz to the edge of the Tiergarten, flanked by important buildings like the exclusive Esplanade Hotel and the gaudy gay spot Mokka Efti further down.

It is the Bellevue Strasse, where until some years ago the American Consulate under the doughty and indomitable Raymond Geist had its headquarters. Right across from this building where the American Eagle is still engraved on the wall, there is an unimpressive edifice with a simple iron gate through which a car can drive under the portal into the inner courtyard.

A plain black and white board sign hangs over the entrance: "THE PEOPLE'S COURT". That is a name dreaded just as much all over the Reich as the Gestapo. Both deal largely in matters closely affecting your own person and both more frequently than not deal out sudden death. There is not much chance of appeal from either of these two Nazi punitive machines.

The People's Court is a sort of specially combined civilian and military courtmartial, whose five judges are appointed by Hitler personally and who are responsible only to the Fuehrer. He alone has the power to suspend or alter a verdict reached by this court.

The judges consist of an officer of each of the three military branches, a functionary of the profession. All goes according to the accepted form of court procedure, with a prosecutor and defense attorney in addition to the usual witnesses, but eighty percent of the cases end up (Continued on Page Two)

CHICAGO'S TRADE BOARD TO PRAY FOR VICTORY

CHICAGO, Jan. 14—Beginning today and every business day thereafter "for the duration," activity on the floor of the Chicago Board of Trade will stop for one minute at 11 a. m. while the members engage in silent prayer for victory. Similar procedure was followed during World War No. 1.

H. W. Campbell Elected New President; Nationals Hold Meetings

George P. Hunsicker, one of the founders of the Farmers' National Bank, Williamsport, and its president continuously since 1919, was retired Tuesday as president of the financial institution when the board of directors organized for the next year.

Mr. Hunsicker's health has been poor in the last year.

He, George Betts and Dr. T. C. Tipton organized the Williamsport bank in 1891. Mr. Betts serving as its first president, Mr. Hunsicker being its first cashier, a position he filled for some years. He was elected president sometime after the turn of the century and was succeeded by the late Tom Tipton. Mr. Hunsicker became president at Mr. Tipton's death in 1919.

Directors named H. White Campbell as president, Mr. Campbell having filled the cashiership since the death of Foreman J. Peck. He had previously been assistant cashier, his connection with the bank starting in 1927.

John W. Stewart remains as vice-president and Thurman Bowsher is promoted to cashier succeeding Mr. Campbell. Marion Steinhauer is the assistant cashier and Mrs. Edna Newhouse the bookkeeper. Members of the board include Mr. Hunsicker, Mr. Campbell, Mr. Stewart, Harry McGhee, C. W. Hays, Fred Tipton and C. K. Hunsicker.

Others Remain Same
Circleville and New Holland national banks completed their organizations Tuesday with no changes reported in the county seat.

George P. Foreman remains as president of the First National Bank and William T. Ulm is first vice-president and cashier. C. A. Leist is second vice-president and C. C. Schwarz, assistant cashier. Directors of the bank are J. D. Hummel, Mr. Leist, Ralph Curdman, George F. Grand-Girard, Mr. Ulm and Mr. Foreman. William F. Crist is teller, Miss Bernice Cook, clerk and stenographer and Eugene Mowery, bookkeeper.

George G. Adkins continues as president of Second National Bank, Joseph P. Noecker, as vice-president and D. D. Dowden as vice-president and cashier. Ned Hitchcock is assistant cashier. Mary E. Ebert is teller and bookkeepers are Homer Walters, William McLaughlin and C. Ray Barnhart. Directors include Mr. Adkins, Mr. Noecker, E. S. Neudinger, D. S. Dunlap and John G. Boggs.

CHINESE COUNT 23,000 BODIES OF JAP TROOPS

CHUNGKING, Jan. 14—Numerous battles raged on far-flung battlefields in China today as Chinese forces kept pounding the Jap invaders.

An official Chinese announcement said 23,000 Japanese bodies had been counted on the northern Hunan province battlefield, where Generalissimo Chiang Kai-Shek's troops still were mopping up the Japs who were driven back from Changsha.

Only 2,000 Japs were said to have escaped the Chinese encirclement trap and crossed the Milo River.

At the same time, an official communique said 3,000 Japanese troops west of the south China port of Canton attacked Chinese forces at the confluence of the north and west rivers. Fighting was reported continuing in this region.

COLUMBUS, Jan. 14—A desperate appeal for salvage materials, especially scrap iron to keep Ohio's open hearth blast furnaces at peak production of armament steel, was being broadcast throughout the state today.

The appeal followed a conference of federal and state officials in the office of Gov. John W. Bricker.

At the gathering were W. R. Talbot, of Washington, for the Federal Salvage Committee; Samuel Slotky of Cleveland, regional director of information for the Office of Emergency Management; Courtney Burton, executive director of the State Defense Council; Lee E. Pierson, chairman of the State Defense Council's salvage committee; Paul Morton, state co-ordinator of tire rationing; James Hubbell, public relations director for the State Defense Council, and James Hopkins, Columbus manager for the division of information, Office of Emergency Management.

Talbot told the group that immediate steps must be taken to salvage every pound of scrap iron and other metals. He added, however, that the public must not lose sight of the need for saving other waste also, especially rubber, paper and old rags.

YOUTHS LISTEN TO ADDRESS ON U. S. AIR CORPS

Much interest in the Flying Cadet unit of the U. S. Army Air Corps was evidenced Tuesday evening when 74 youths, all between ages of 20 and 26 and all classified in I-A by the Pickaway County draft board, attended an air corps meeting conducted by the Circleville Lodge of Elks. The meeting was in the Elks lodge home and was addressed by Major Earl F. Baskey of Fort Hayes, center of the Fifth Corps Area in Columbus.

Major Baskey discussed qualifications for entering the air service and urged the youths to file applications at an early date. After draft eligibles have received their induction notices they cannot be released by their draft board.

Numerous Pickaway County school men were present also. E. C. Ebert is chairman of the Elks' lodge committee which sponsored the event.

CHAUNCEY McCORD DIES AT 64; RITES SATURDAY

BERNE, Switzerland, Jan. 14—The Berliner Boersen Zeitung, in one of the most revealing war statements yet to come out of Germany, admitted today that "the Russians have proved stronger than our responsible leaders imagined."

The paper painted a vivid picture of the sufferings of poorly clothed and equipped German troops in the Russian winter, and pointed out that "the Russian high command saw through the German intention to withdraw to a winter line and at once started an offensive to frustrate the plan."

The Russians also possessed numerical superiority on the Eastern Front, the paper admitted.

Dr. Sertorius, a German commentator, was the author of the article.

Admitting that the German defensive retreat before the Russian onslaught has been on a tremendous scale, the article said:

RUSSIANS DRIVE NEAR SMOLENSK; KIROV CAPTURED

MOSCOW, Jan. 14—New advances that carried Red army forces to a point only 85 miles from Smolensk were revealed today with announcement Soviet troops have recaptured the industrial city of Kirov.

(Editor's Note: Until recently Adolf Hitler was reported to have maintained his military headquarters at Smolensk. Several days ago Russian reports claimed Hitler had moved his headquarters to some undisclosed and safer point farther south.)

Kirov was retaken by the southern arm of the Russian pincer closing in around the Smolensk-Moscow highway. The northern arm was declared to have recaptured Dorokhovo, 15 miles east of Moshaisk—carrying forward the encirclement of Nazi forces trapped in the Moshaisk area.

WASHINGTON, Jan. 14—For the second successive day the forces of Gen. Douglas MacArthur have smashed back Japan's all out offensive on the Luzon Front, the War Department revealed today adding that the American forces have begun to carry the battle to the invaders by bombing Japanese posts in the Dutch East Indies.

American bombing planes blasted a Japanese naval concentration in the area of Tarakan northeast of Borneo, a War Department communique said. The War Department explained that the foray was conducted in cooperation with forces of the Netherlands Indies and was designed to smash a Japanese landing operation.

Three American bombers executed the blow destroying two enemy landing boats.

All Planes Return

This operation, first directed against Nippon in the Indies area, was made during "unfavorable weather," and except for the destruction of the two enemy landing boats results of the attack were not fully determined. The American planes, however, returned undamaged to their undisclosed base.

The Japs stabbed in two reconnaissance drives at Gen. MacArthur's fortified line in North Bataan, and, according to the communique, "were repulsed by our troops, with the Japanese suffering heavy losses."

Casualties in the American-Filipino ranks were "comparatively small," the War Department said.

The Nipponese attacks, part of a sustained exhaustive effort to smash through the defender's previously arranged positions, were supported by air and artillery assault, the War Department announced.

Text of the communique follows:

"Philippine Theatre: The enemy yesterday made two determined attacks which were in the nature of reconnaissances in force. These attacks were well supported by artillery and aircraft. Both were repulsed by our troops, with the Japanese suffering heavy losses. American and Philippine casualties were comparatively small.

"Hostile air operations were confined to support of ground troops. No attacks were made on our fortifications.

COAST DEFENSES NEEDED, 'FRISCO OFFICIAL CLAIMS

SAN FRANCISCO, Jan. 14—San Francisco Supervisor Fred Meyer today declared that in view of the "rising need" for Pacific Coast defenses that will eliminate, "beyond all range of possibility, the peril of Japanese bombings or invasion," he would ask the board of supervisors to request that Congress immediately install adequate defenses.

"We know that coastal defenses have been provided and that more are being installed daily," Meyer said. "But we must make certain that our people and our vital war industries have maximum protection, anything less would be folly."

The resolution will emphasize the need for protection because the nation's major output of planes and ships is concentrated on the Pacific Coast.

Singapore Situation 'Serious'

British Continuing To
Withdraw As Japs
Attack

LONDON, Jan. 14—British troops still are withdrawing in Malaya, military authorities in London conceded today.

The situation on the Malayan mainland must be considered "very, very grave," it was stated. Informed British quarters made no effort to conceal their belief that the Japanese threat to Singapore, the giant imperial Far Eastern bastion, is a perilous one.

In the absence of detailed communique from Singapore and exact information regarding conditions in the Malayan Peninsula, statements regarding the present status of the British defenders are mere guesswork, it was stressed.

But British authorities said it was obvious that the situation is bad.

They added they believed that worse news must be expected before the situation can become better.

There was considerable unofficial speculation in London regarding the water situation on Singapore Island. It was understood the island's main water works are situated adjacent to the mainland and that the water is piped across the causeway.

Although it was felt some better provision must have been made, there was an undercurrent of anxiety lest the Singapore water situation provide the same difficulties that eventually caused the surrender of Hong Kong.

Latest reports from Singapore indicated the British now have withdrawn to new positions within 150 miles of Singapore.

War Bulletins

NEW YORK—Communications by land between northern Norway and Finland have been paralyzed by Norwegian saboteurs, the British radio said today in a broadcast heard by NBC. "Two important bridges have been blown up in the far northern province of Finnmark," said the BBC. "The land supply route to Lieut. Gen. Eduard Dietels' northern army (opposing the Russians) has been cut."

RANGOON, Burma—British bombers ranged out over Japanese-held Thailand to blast enemy positions at Parachuthairikan, on the gulf of Siam, and Ratur, British military headquarters said today.

NEW YORK—The Chetniks, Yugoslavian guerrilla troops, have launched renewed attacks against the Nazi armies of occupation during the last few days, the British radio said today in a broadcast picked up by CBS.

MEXICO CITY—Baron Heinrich Von Collenberg, former German minister to Mexico, and his staff will be sent to the United States for detention at White Sulphur Springs, in accordance with a deportation order announced by President Avila Camacho today.

Leaders Of United Nations
Believed Ready To Map
Scheme Of Attack

BATAVIA, Jan. 14—Carrying their blows as far afield as the Southern Philippines, Netherlands air and land forces opened a vigorous new counter-offensive against the Japanese today.

The attack coincided with arrival in the Dutch East Indies of the United Nations Far Eastern command, headed by General Sir Archibald P. Wavell of the British imperial army and General George H. Brett, U. S. A.

Dutch bombers raided Japanese-occupied Tarakan, off the east coast of Borneo, scoring a hit on Japanese ships, while Dutch land forces engaged Jap troops on the border of Sarawak, killing 18 with the loss of only one man.

Meanwhile, a Netherlands flying boat flew northward to the South Philippines and bombed a Japanese air base, scoring three direct hits on a barracks.

The new aerial successes were announced in a communique which told of a heavy new Dutch air offensive against Japanese forces now entrenched on Tarakan Island.

The ships hit were part of a large fleet, consisting of six cruisers, six torpedo boats and 14 transports.

Full extent of the damage inflicted was not disclosed immediately.

It was indicated the Japs on the tiny oil-bearing island took a heavy pounding.

An earlier communique said: "During skirmishes between Netherlands Indies troops and Japanese on the border of Sarawak, 18 Japanese were killed. On our side presumably one soldier was killed."

"A number of Japanese bombers raided ships in the harbor of Balikpapan without inflicting damage."

"Netherlands Indies bombers carried out an aerial bombardment of Tarakan during which a direct hit was scored on a Japanese ship."

"The projected destructions at Tarakan were completely carried out before the fight ended Monday last. The buildings and workshops of the naval air base at Tarakan were also wrecked. The same happened to the jetty, which was destroyed by the flames of the burning oil on the water."

"During the action at Tarakan no material was lost."

JAP AIR PLANES POUR BOMBS ON CITY OF RANGOON

RANGOON, Burma, Jan. 14—Enemy planes dropped bombs north of Rangoon today and heavy anti-aircraft fire barraged the skies as the Japanese unleashed a new air raid on Rangoon.

The Japs repeatedly bombed an airfield north of the city, but caused only negligible damage, authorities said.

Observers estimated that more than the usual number of Jap planes participated in the new attack.

The attackers arrived 90 minutes after the alarm sounded. A silvery moon shone. Rangoon, entrenched and sheltered, waited patiently for the attack to begin.

Crashing anti-aircraft fire from the eastern section of the city announced the arrival of the Japanese planes. The thunderous gunfire mingled with the drone of plane engines as the sky filled with bursting shells and "flaming onions."

After a brief interval ground defenses in the northern sector roared into action and scattered sounds of plane motors indicated the raiders had been disorganized by the barrage.

WASHINGTON, Jan. 14—For the second successive day the forces of Gen. Douglas MacArthur have smashed back Japan's all out offensive on the Luzon Front, the War Department revealed today adding that the American forces have begun to carry the battle to the invaders by bombing Nipponese posts in the Dutch East Indies.

American bombing planes blasted a Japanese naval concentration in the area of Tarakan northeast of Borneo, a War Department communique said. The War Department explained that the foray was conducted in cooperation with forces of the Netherlands Indies and was designed to smash a Nipponese landing operation.

Three American bombers executed the blow destroying two enemy landing boats.

All Planes Return

This operation, first directed against Nippon in the Indies area, was made during "unfavorable weather," and except for the destruction of the two enemy landing boats results of the attack were not fully determined. The American planes, however, returned undamaged to their undisclosed base.

The Japs stabbed in two reconnaissance drives at Gen. MacArthur's fortified line in North Bataan, and, according to the communique, "were repulsed by our troops, with the Japanese suffering heavy losses."

Casualties in the American-Filipino ranks were "comparatively small," the War Department said.

The Nipponese attacks, part of a sustained exhaustive effort to smash through the defender's previously arranged positions, were supported by air and artillery assault, the War Department announced.

Text of the communique follows:

"Philippine Theatre: The enemy yesterday made two determined attacks which were in the nature of reconnaissance in force. These attacks were well supported by artillery and aircraft. Both were repulsed by our troops, with the Japanese suffering heavy losses. American and Philippine casualties were comparatively small."

"Hostile air operations were confined to support of ground troops. No attacks were made on our fortifications."

COAST DEFENSES NEEDED, 'FRISCO OFFICIAL CLAIMS

SAN FRANCISCO, Jan. 14—San Francisco Supervisor Fred Meyer today declared that in view of the "rising need" for Pacific Coast defenses that will eliminate, "beyond all range of possibility, the peril of Japanese bombings or invasion," he would ask the board of supervisors to request that Congress immediately install adequate defenses.

"We know that coastal defenses have been provided and that more are being installed daily," Meyer said. "But we must make certain that our people and our vital war industries have maximum protection, anything less would be folly."

The resolution will emphasize the need for protection because the nation's major output of planes and ships is concentrated on the Pacific Coast.

Singapore Situation 'Serious'

British Continuing To
Withdraw As Japs
Attack

LONDON, Jan. 14—British troops still are withdrawing in Malaya, military authorities in London conceded today.

The situation on the Malayan mainland must be considered "very, very grave," it was stated. Informed British quarters made no effort to conceal their belief that the Japanese threat to Singapore, the giant imperial Far Eastern bastion, is a perilous one.

In the absence of detailed communications from Singapore and exact information regarding conditions in the Malayan Peninsula, statements regarding the present status of the British defenders are mere guesses, it was stressed.

But British authorities said it was obvious that the situation is bad.

They added they believed that worse news must be expected before the situation can become better.

There was considerable unofficial speculation in London regarding the water situation on Singapore Island. It was understood the island's main water works are situated adjacent to the mainland and that the water is piped across the causeway.

Although it was felt some better provision must have been made, there was an undercurrent of anxiety lest the Singapore water situation provide the same difficulties that eventually caused the surrender of Hong Kong.

Latest reports from Singapore indicated the British now have withdrawn to new positions within 150 miles of Singapore.

Leaders Of United Nations
Believed Ready To Map
Scheme Of Attack

BATAVIA, Jan. 14—Carrying their blows as far afield as the Southern Philippines, Netherlands air and land forces opened a vigorous new counter-offensive against the Japanese today.

The attack coincided with arrival in the Dutch East Indies of the United Nations Far Eastern command, headed by General Sir Archibald P. Wavell of the British imperial army and General George H. Brett, U. S. A.

Dutch bombers raided Japanese-occupied Tarakan, off the east coast of Borneo, scoring a hit on Japanese ships, while Dutch land forces engaged Jap troops on the border of Sarawak, killing 18 with the loss of only one man.

Meanwhile, a Netherlands flying boat flew northward to the South Philippines and bombed a Japanese air base, scoring three direct hits on a barracks.

The new aerial successes were announced in a communique which told of a heavy new Dutch air offensive against Japanese forces now entrenched on Tarakan Island.

The ships hit were part of a large fleet, consisting of six cruisers, six torpedo boats and 14 transports.

Full extent of the damage inflicted was not disclosed immediately.

It was indicated the Japs on the tiny oil-bearing island took a heavy pounding.

An earlier communique said: "During skirmishes between Netherlands Indies troops and Japanese on the border of Sarawak, 18 Japanese were killed. On our side presumably one soldier was killed."

"A number of Japanese bombers raided ships in the harbor of Balikpapan without inflicting damage."

"Netherlands Indies bombers carried out an aerial bombardment of Tarakan during which a direct hit was scored on a Japanese ship."

"The projected destructions at Tarakan were completely carried out before the fight ended Monday last. The buildings and workshops of the naval air base at Tarakan were also wrecked. The same happened to the jetty, which was destroyed by the flames of the burning oil on the water."

"During the action at Tarakan no material was lost."

JAP AIRPLANES POUR BOMBS ON CITY OF RANGOON

RANGOON, Burma, Jan. 14—Enemy planes dropped bombs north of Rangoon today and heavy anti-aircraft fire barraged the skies as the Japanese unleashed a new air raid on Rangoon.

The Japs repeatedly bombed an airfield north of the city, but caused only negligible damage, authorities said.

Observers estimated that more than the usual number of Jap planes participated in the new attack.

The attackers arrived 90 minutes after the alarm sounded. A silvery moon shone, Rangoon, entrenched and sheltered, waited patiently for the attack to begin.

Crashing anti-aircraft fire from the eastern section of the city announced the arrival of the Japanese planes. The thunderous gunfire mingled with the drone of plane engines as the sky filled with bursting shells and "flaming onions."

After a brief interval ground defenses in the northern sector roared into action and scattered sounds of plane motors indicated the raiders had been disorganized by the barrage.

Fifty automobile dealers, representing more than 44,000 dealers and their 500,000 employees throughout the nation, told the House committee that they faced economic ruin unless steps were taken immediately to alleviate their crisis.

It was made by Arthur Center, Springfield, Mass., dealer, who argued that the "Victory Car" could be constructed with materials from the two and a half million cars scrapped in this country every year and the tons of old rubber piled up in junkyards."

Uncle Sam's Bombers Fly With Dutch In Thrust At Seized Island

(Continued from Page One) American bombing planes, cooperating with the air forces of the Netherlands Indies, attacked a Japanese naval force engaged in landing operation in the Tarakan area of Borneo. Unfavorable weather conditions made it difficult to determine the results of the attack. However, it is known that two enemy fighters were destroyed. Our planes returned to their base undamaged.

"There is nothing to report from other areas." Installations of Japanese bases at Mindanao and Jolo, military observers pointed out, would place Japanese aircraft within easy flight to both the Indies and Singapore.

These plans of the invaders became apparent more than a week ago when they began establishing bases in the lower Philippine Islands.

Meanwhile Washington military experts held the belief that only a lack of American-Filipino reinforcements has saved Japan from a humiliating defeat in its do-or-die drive to complete conquest of the Philippines.

Observers deplored the fact that MacArthur had so few men that he was not able to follow up offensively on one of the most staggering blows yet administered to the invaders.

They pointed out that, as a result, the Japs now can launch the next attack at their own discretion.

The Japanese battering ram, observers predicted, will not be plunged against the Bataan Peninsula again until the Nipponese field commanders reorganize their battered units. Authorities said the Japs possibly would strike quickly. It appeared more probable, however, that they would "take time out" to recover from their second unsuccessful effort to annihilate the island defenders.

A War Department communiqué disclosed that the Japanese hordes, including columns of tanks, armored units and infantry concentrations, "were shattered and dispersed" by defensive artillery barrage after a 24-hour duel.

Nazi No. 4 Tipped Off Reich Plot

(Continued from Page One) in a death sentence or long prison sentences at hard labor.

Building Formerly A Library

The building now used by the People's Court formerly was a library for sciences and literature endowed by the Kaiser. The marble staircase leading upstairs is still there, and the courtroom and Judges' chambers retain their paneled oak.

The photos of Hitler with one of his severe looks hangs everywhere on the wall, and on the judges' table in the courtroom lies the usual bible used to take the oath on.

Defendants of the various services or of government positions take their oath by holding in the four fingers of their left hand the Nazi flag standing alongside the table. A rare few spectators receive permission to get in on a session, depending on the nature of the case on trial.

There is no gate-crashing, and the majority of hearings before the People's Court are in camera. For cases coming before this deadly court are primarily based on charges of treason, espionage, subversive activity or plotting against the welfare and safety of the state or its representatives.

Length Of Trial Varies

The trial may last a few hours; it may occupy the court in exceptional cases from morning to night of the day, but seldom longer. The prepared evidence in the case and the circumstances usually have been clarified by the Gestapo and the military intelligence to such an extent that the procedure in the courtroom itself more often than not is a matter of formality. It isn't very often that the uniformed judges behind the table have to keep dinner waiting at home or cancel the evening's beer and schnapps pleasure at their Stammtisch in their favorite kneipe.

But that it what happened on the night of October 17, 1941. The case in hand, a dangerous secret known to and talked about in all the Wilhelmstrasse and the diplomatic whispering galleries of Berlin, did not reach a verdict until Saturday evening of the next day.

Then it rang down the curtain not simply on the meteoric career of Nazi "big-shot" Number Four but it reverberated through the hearts of men on the inside like an earthquake, and sounded finis, among other things, to what up to now could have been described as a sort of Nazi tolerance and attitude of restraint toward America; tempered also by the tenacious hope in the breast of the "big-shot" on trial that somehow or other Germany and the United States could be kept from coming into open war against each other.

Liked U. S. Newspapersmen

The man of the thinning blond hair in the prisoner's box before the People's Court on October 17 was the hitherto gay and audacious Ministerial Director Professor Doctor Karl Boemer, friend of all things American and with a particularly warm spot for American correspondents in Berlin.

His imposing title when boiled down into plain language gave him the rank equal to that of a German ambassador broad. That, at forty-two years of age and considering the fact that he joined the Nazi Party only in 1932, was something to write home about.

It was common knowledge that "Bel Ami" as he was popularly known from his easy success with the fair sex, would inevitably advance within the next year or so to the coveted title of Staats-Sekretair, one step away from the rank of minister. On the

by and large, he was Big-Shot Number Four in Naziland by dint of power and influence.

Karl Boemer had flashed his way to the peaks of Nazi Government by sheer brilliance mixed with a cocky dare-deviltry that gave him the reputation in the Wilhelmstrasse of being about the only man who'd tell Goebbels to his face, for example, that he was all wrong and making a big mistake.

His intimate knowledge of America and Americans enabled him to talk and to act with authority in that respect, and it is generally recognized by friend and foe in Berlin that Karl Boemer as chief of the foreign department in the Propaganda Ministry did his job most efficiently.

He was the only man in the Nazi Government who outdid Houdini by working smoothly for two rival taskmasters at the same time: Joe Goebbels of the Propaganda Ministry was his chief on one side of the street and Hitler's Minister of the Press Otto Dietrich from the Reich Chancellery the other.

Goebbels and Dietrich, each jealously guarding their prerogatives and personal foes of long standing, were about as easy to handle and pacify in one basket as a tomat and a rattlesnake. But Boemer did it, and did it so well that both big Nazis swallowed the knocks and sometimes acid criticism he dished out when the situation called for it. They showered him with expensive presents, and told him he ought to be shot.

Divulged Nazi Secret

This, then, was the man who stood before the People's Court in October fighting for his life. He was brandmarked with having broken nearly six months before a great Hitler secret: in an unguarded moment of overworked nerves and strong drink mixed with the passionate love for a woman, he had blurted out to sharp-eared guests of a foreign legation in Berlin the fact that within a few weeks Hitler was going to attack Soviet Russia and march his armies clear to Moscow and the Volga.

You can imagine the commotion and the gasps among Germans and foreigners alike in the legation that evening, with telephone calls to foreign capitals throughout the night. And the busiest of all these international telephone lines that night in May was the one between the Soviet Embassy and the very private office of Joseph Stalin in Moscow.

The secret was out, and so was Charlie Boemer. Without realizing it until later and until too late, he had become the victim of clashing political interests, of international intrigue, of rivalries in the Wilhelmstrasse, and finally of the policy of moderation and restraint towards America for which he had tenaciously fought in past years.

As far back as 1936 he had sold Hitler on the policy that America must never again be provoked into any war or participation in a war against Germany.

He had convinced Hitler — and that meant pacifying and reconciling Goebbels to his viewpoint and swinging Ribbentrop into it—that America is a land of fads and

Fifty automobile dealers, representing more than 44,000 dealers and their 500,000 employees throughout the nation, told the House committee that they faced economic ruin unless steps were taken immediately to alleviate their crisis. A suggestion that the industry be permitted to manufacture a single, small, "victory model" car for civilian users topped the list of remedies offered by the dealers. It was made by Arthur Center, Springfield, Mass., dealer, who argued that the "Victory Car" could be constructed with materials from the two and a half million cars scrapped in this country every year and the tons of old rubber piled up in junkyards."

DISCUSSION OF A. A. A. PLAN FOR '42 IS HELD

Agricultural Adjustment Administration officials from nine counties were meeting in Circleville Wednesday to discuss the farm program for 1942. Farmer field women of the district met at the AAA offices on East Main Street Wednesday morning where they discussed a "Food for Freedom" program. In charge of the discussion was Mrs. Margaret K. Gephart, assistant state field woman. County AAA chairmen met in Betz' restaurant Wednesday and were joined by the field women for the afternoon program. Harry Donohoo, district AAA field representative, was in charge of the county chairmen's meeting.

RIFLE TEAMS IN ACTION, USING PAIR OF POSITIONS

Members of the Pickaway County Rifle and Pistol Club resumed their rifle matches Tuesday night after suspending their shooting schedule last week because of cold weather. Prone and kneeling positions were fired by the Oils and the Ralston Purina team, the Purina team winning both matches. Final score on the prone match was Purina 484, Oils 476. The kneeling match ended Purina 366, Oils 335.

Uncle Sam's Bombers Fly With Dutch In Thrust At Seized Island

(Continued from Page One) American bombing planes, cooperating with the air forces of the Netherlands Indies, attacked a Japanese naval force engaged in landing operation in the Tarakan area of Borneo. Unfavorable weather conditions made it difficult to determine the results of the attack. However, it is known that two enemy fighters were destroyed. Our planes returned to their base undamaged. "There is nothing to report from other areas." Installations of Japanese bases at Mindanao and Jolo, military observers pointed out, would place Japanese aircraft within easy flight to both the Indies and Singapore. These plans of the invaders became apparent more than a week ago when they began establishing bases in the lower Philippine Islands.

Meanwhile Washington military experts held the belief that only a lack of American-Filipino reinforcements has saved Japan from a humiliating defeat in its do-or-die drive to complete conquest of the Philippines. Observers deplored the fact that MacArthur had so few men that he was not able to follow up offensively on one of the most staggering blows yet administered to the invaders. They pointed out that, as a result, the Japs now can launch the next attack at their own discretion.

The Japanese battering ram, observers predicted, will not be plunged against the Bataan Peninsula again until the Nipponese field commanders reorganize their battered units. Authorities said the Japs possibly would strike quickly. It appeared more probable, however, that they would "take time out" to recover from their second unsuccessful effort to annihilate the island defenders.

A War Department communiqué disclosed that the Japanese hordes, including columns of tanks, armored units and infantry concentrations, "were shattered and dispersed" by defensive artillery barrage after a 24-hour duel.

Building Formerly A Library

The building now used by the People's Court formerly was a library for sciences and literature endowed by the Kaiser. The marble staircase leading upstairs is still there, and the courtroom and Judges' chambers retain their paneled oak.

The photos of Hitler with one of his severe looks hangs everywhere on the wall, and on the judges' table in the courtroom lies the usual bible used to take the oath on.

Defendants of the various services or of government positions take their oath by holding in the four fingers of their left hand the Nazi flag standing alongside the table. A rare few spectators receive permission to get in on a session, depending on the nature of the case on trial.

There is no gate-crashing, and the majority of hearings before the People's Court are in camera. For cases coming before this deadly court are primarily based on charges of treason, espionage, subversive activity or plotting against the welfare and safety of the state or its representatives.

Length Of Trial Varies

The trial may last a few hours; it may occupy the court in exceptional cases from morning to night of the day, but seldom longer. The prepared evidence in the case and the circumstances usually have been clarified by the Gestapo and the military intelligence to such an extent that the procedure in the courtroom itself more often than not is a matter of formality. It isn't very often that the uniformed judges behind the table have to keep dinner waiting at home or cancel the evening's beer and schnapps pleasure at their Stammtisch in their favorite kneipe.

But that it what happened on the night of October 17, 1941. The case in hand, a dangerous secret known to and talked about in all the Wilhelmstrasse and the diplomatic whispering galleries of Berlin, did not reach a verdict until Saturday evening of the next day.

Then it rang down the curtain not simply on the meteoric career of Nazi "big-shot" Number Four but it reverberated through the hearts of men on the inside like an earthquake, and sounded fins, among other things, to what up to now could have been described as a sort of Nazi tolerance and attitude of restraint toward America; tempered also by the tenacious hope in the breast of the "big-shot" on trial that somehow or other Germany and the United States could be kept from coming into open war against each other.

ANOTHER FIGHTING SHIP TO SLIP DOWN RUNWAY

SAN FRANCISCO, Jan. 14—Another fighting ship will be launched in San Francisco tomorrow, when the U. S. S. Caldwell, a destroyer, slips down the ways of the Bethlehem Steel Company, the Navy announced today. The ship was built in less than ten months, its keel having been laid on March 24, 1941.

by and large, he was Big-Shot Number Four in Naziland by dint of power and influence.

Karl Boemer had flashed his way to the peaks of Nazi Government by sheer brilliance mixed with a cocky dare-deviltry that gave him the reputation in the Wilhelmstrasse of being about the only man who'd tell Goebbels to his face, for example, that he was all wrong and making a big mistake.

His intimate knowledge of America and Americans enabled him to talk and to act with authority in that respect, and it is generally recognized by friend and foe in Berlin that Karl Boemer as chief of the foreign department in the Propaganda Ministry did his job most efficiently.

He was the only man in the Nazi Government who outdid Houdini by working smoothly for two rival taskmasters at the same time: Joe Goebbels of the Propaganda Ministry was his chief on one side of the street and Hitler's Minister of the Press Otto Dietrich from the Reich Chancellery the other.

Goebbels and Dietrich, each jealously guarding their prerogatives and personal foes of long standing, were about as easy to handle and pacify in one basket as a tomcat and a rattlesnake. But Boemer did it, and did it so well that both big Nazis swallowed the knocks and sometimes acid criticism he dished out when the situation called for it. They showered him with expensive presents, and told him he ought to be shot.

Divulged Nazi Secret

This, then, was the man who stood before the People's Court in October fighting for his life. He was branded with having broken nearly six months before a great Hitler secret: in an unguarded moment of overworked nerves and strong drink mixed with the passionate love for a woman, he had blurted out to sharp-eared guests of a foreign legation in Berlin the fact that within a few weeks Hitler was going to attack Soviet Russia and march his armies clear to Moscow and the Volga.

You can imagine the commotion and the gasps among Germans and foreigners alike in the legation that evening, with telephone calls to foreign capitals throughout the night. And the busiest of all these international telephone lines that night in May was the one between the Soviet Embassy and the very private office of Joseph Stalin in Moscow.

The secret was out, and so was Charlie Boemer. Without realizing it until later and until too late, he had become the victim of clashing political interests, of international intrigue, of rivalries in the Wilhelmstrasse, and finally of the policy of moderation and restraint towards America for which he had tenaciously fought in past years.

As far back as 1936 he had sold Hitler on the policy that America must never again be provoked into any war or participation in a war against Germany.

He had convinced Hitler — and that meant pacifying and reconciling Goebbels to his viewpoint and swinging Ribbentrop into it—that America is a land of fads and

FORMER SCHOOL TEACHER GIVEN SPECIAL TRAINING

Captain John David Barricklow of Lancaster, former Circleville High School teacher, was recently graduated from the Officers' Course (Tactical) of the Quartermaster School at Camp Lee, Va.

The course of instruction, which lasted six weeks, was a specialized one for officers to be assigned to Division, Corps and Field Army Units. It is the second of its kind to be presented at the School and is designed to be a polishing and refreshing process to fit young officers of the Quartermaster Corps for immediate assignment to field duty type of service. Upon graduation they are assigned, for a short technical course, to Replacement Centers from which places they soon proceed to tactical units of the Armies for duty as company officers.

'Remember the Day'

MALICIOUS gossip never does anyone good—as John Payne and Claudette Colbert find out in their latest picture for 20th Century-Fox, "Remember the Day." The climactic scene illustrated above in the film, depicts the time when Claudette, as Nora Trinell, is forced to forego her love for John Payne as warring tongues exact their terrible toll. The picture starts Sunday at the new deluxe Grand Theatre.

Nelson Directs War Production

Entire Wartime Output Placed In
Hands Of One Man; Importance
Of Job Cited In Washington

WASHINGTON, Jan. 14—Donald M. Nelson, erstwhile guiding genius of one of America's biggest mail order houses, today held complete and final control over the entire productive wartime capacity of the United States—subject only to countermand by President Roosevelt.

All earlier experiments in stepping up production, granting priorities and procuring essential raw materials through divided control were swept aside by the President in one all-embracing order which established a "war production board."

Nelson, as chairman, is charged with full direction of the war production program. He further is given "general supervision" over all production agencies. "His decision," declared President Roosevelt in a formal statement, "as to questions of procurement and production will be final."

Sitting at Nelson's right hand will be Vice-President Henry A. Wallace, who is chairman of the President's Economic Defense Board—an agency charged with putting the utmost possible squeeze on Germany, Japan and their satellites.

Merged under Nelson's "final" authority in the matter of actually producing 185,000 planes, 120,000 tanks, 18,000,000 tons of shipping and an astounding quantity of guns and munitions are all present members of the Office of Production Management, the Supply Priorities and Allocations Board, and the production boards of the Army and Navy.

Britain's Act Recalled

The presidential order conceded that Britain's bitter experience which ultimately made Lord Beaverbrook unquestioned minister of supply, should apply in the American all-out diversion of industry to war production.

Nelson first began to emerge as America's No. 1 production boss when he left his job as vice president of Sears, Roebuck and Company less than a year ago to come into federal service as director of purchases for the OPM.

When criticism of OPM's failure to coordinate reached a crescendo, the President created the Supply Priorities and Allocations Board and made Nelson executive director.

Simultaneously, the President set up the Economic Warfare Board, with Wallace as chairman. This board was charged with stifling economic needs of the axis powers and at the same time promoting an assured supply of critical materials for the United States.

Mr. Roosevelt made his final decision to establish Nelson as overall production boss following a Tuesday evening conference with him and Wallace.

The new production chief left a

ASHVILLE'S BUS SERVICE MAY BE INCREASED SOON

ASHVILLE

Mayor Fred Hines, Bus Agent Clyde Brinker and O. R. Gable, chairman of the Community Club, were in Columbus Monday testifying before the State Public Utilities Commission regarding the increased service of the buses now operating between Ashville and Columbus.

There is more than a mere possibility that three additional buses will be placed in service between the village and the capital city, totaling six in service each day. The proposed route for these three named conveyances is north from Ashville to the Lockbourne Road through the village and on to Columbus, connecting with the Air Plane Field, if and when it gets into operation.

Santa Claus fearing that it might not hold out that long and stay fine, Christmas being 345 days away yet, he ordered Marshal Walden and assistants to remove the Christmas tree and the fixings about it. This was all done in good order and the same spot will be there and waiting for another one of those fine Simon Rife cedars erected in season for Santa's next visit.

While there have been no deeds made or cash on the line offered as evidence that the airplane field to the north of us is a certainty, direct word from there given out by one concerned, said the underground telephone wires were being removed and that a power shovel had been brought to the Irvin Young farm. And too, that the lot of us, are expecting any day now, closed deals, with orders to move.

Bob Kirk, the former Scioto Grain elevator manager and occasionally down in a Kentucky military camp, was "up home here" the other evening for a short visit and is sure he'll like the war alright if it gets no worse than now.

Harry Hampson and Mrs. Blanche Baker, seriously sick a few days ago, are both reported improved. They are at homes of daughters in Columbus.

Marvin and Mrs. Lindsey were here from Columbus looking things over at the old home at Walnut Bank.

Hear ye, hear ye, court is now in session! That's the by-word of the Commercial Law class at the high school these last few days as the members have been holding trial, the idea being to put into practice some of the knowledge that has been acquired through study and discussion.

A disagreement of the jury in the first trial necessitated the forming of a new jury and a re-trial of the case. The trial was conducted by the students in a manner which followed common court procedure. The charge, made by the plaintiff, Boyd Kuhlwein against the defendant, Paul Pettibone, was that of assault and battery. Attorneys representing Boyd were William Pettibone and Wilma Smith. Paul's lawyers were Bill Cain and Carl McClurg.

The judge in the trial was Donald Duvall the first day and Eugene Wilson the second day. Elmer Neff fulfilled the duties of sheriff, bailiff, "janitor," etc.

Class members who performed on the jury were Dorothy Wellington, Geneva Partee, Jack Foreman, Harold Myers, Leonard Campbell and Elroy Reid. It was Reid who caused disagreement in the first trial as he held out for a not-guilty verdict while the

others members voted the defendant guilty. Defendant was found guilty in the second trial.

The trials represent the climax to the one-half year course in Commercial Law which has been both interesting and helpful to everyone who took the course. N. E. Murphy was in charge of this class.

GESTAPO CHIEF IN HIGH PLACE

Moscow Radio Announces
Himmler Now Ahead
Of Goering

BERNE, Jan. 14—Heinrich Himmler, chief of the Nazi Gestapo, has become "Hitler's confidence man, more powerful than Goering," as a result of recent discords and unrest in the German army, Moscow radio said today.

Himmler has caused 10,000 troops of the elite SS (Schutzstaffel) to be brought back from the Russian Front to Germany, to "keep order," Moscow radio said. In addition to prevailing on Hitler to bring back the SS troops, Himmler was said to have recommended organization of 3,000 special "flying troops," to quell any possible disturbance within the Reich.

(The new "Home Front" troops presumably would be used to meet a possible army coup aimed at overthrowing Hitler's government. Disaffection is said to be rife in the Nazi army following wholesale dismissal of high command officers, allegedly because of difficulties on the Russian Front.)

FAIR MANAGERS TO 'CARRY ON' IN NEXT YEAR

COLUMBUS, Jan. 14—"Carry on as usual".

This was the unofficial slogan of the Ohio State Fair Managers meeting which opened a two-day session in Columbus today.

Most important business before the group was the assignment of dates for the Ohio State fair and 92 county and independent fairs throughout the state by Agriculture Director John T. Brown.

Brown asserted that all fairs would be held as usual. "To accomplish the important work that lies before us, it is necessary to maintain the morale and interest of agriculture," he said.

Fair managers, arriving to attend the meeting, indicated that all expositions this year would stress farm production in wartime. It is expected that the first fair in the state will be the one at Ashley, Delaware County, July 15-18. Thereafter the schedule will continue unbroken through the latter part of October.

FORMER SCHOOL TEACHER GIVEN SPECIAL TRAINING

Captain John David Barricklow of Lancaster, former Circleville High School teacher, was recently graduated from the Officers' Course (Tactical) of the Quartermaster School at Camp Lee, Va.

The course of instruction, which lasted six weeks, was a specialized one for officers to be assigned to Division, Corps and Field Army Units. It is the second of its kind to be presented at the School and is designed to be a polishing and refreshing process to fit young officers of the Quartermaster Corps for immediate assignment to field duty type of service. Upon graduation they are assigned, for a short technical course, to Replacement Centers from which places they soon proceed to tactical units of the Armies for duty as company officers.

Nelson Directs War Production

Entire Wartime Output Placed In Hands Of One Man; Importance Of Job Cited In Washington

WASHINGTON, Jan. 14—Donald M. Nelson, erstwhile guiding genius of one of America's biggest mail order houses, today held complete and final control over the entire productive wartime capacity of the United States—subject only to countermand by President Roosevelt.

All earlier experiments in stepping up production, granting priorities and procuring essential raw materials through divided control were swept aside by the President in one all-embracing order which established a "war production board."

Nelson, as chairman, is charged with full direction of the war production program. He further is given "general supervision" over all production agencies.

"His decision," declared President Roosevelt in a formal statement, "as to questions of procurement and production will be final."

Sitting at Nelson's right hand will be Vice-President Henry A. Wallace, who is chairman of the President's Economic Defense Board—an agency charged with putting the utmost possible squeeze on Germany, Japan and their satellites.

Merged under Nelson's "final" authority in the matter of actual production are 185,000 planes, 120,000 tanks, 18,000,000 tons of shipping and an astounding quantity of guns and munitions are all present members of the Office of Production Management, the Supply Priorities and Allocations Board, and the production boards of the Army and Navy.

Britain's Act Recalled

The presidential order conceded that Britain's bitter experience which ultimately made Lord Beaverbrook unquestioned minister of supply, should apply in the American all-out diversion of industry to war production.

Nelson first began to emerge as America's No. 1 production boss when he left his job as vice president of Sears, Roebuck and Company less than a year ago to come into federal service as director of purchases for the OPM.

When criticism of OPM's failure to coordinate reached a crescendo, the President created the Supply Priorities and Allocations Board and made Nelson executive director.

Simultaneously, the President set up the Economic Warfare Board, with Wallace as chairman. This board was charged with stifling economic needs of the axis powers and at the same time promoting an assured supply of critical materials for the United States.

Mr. Roosevelt made his final decision to establish Nelson as overall production boss following a Tuesday evening conference with him and Wallace.

The new production chief left a

ASHVILLE'S BUS SERVICE MAY BE INCREASED SOON

ASHVILLE

Mayor Fred Hines, Bus Agent Clyde Brinker and O. R. Gable, chairman of the Community Club, were in Columbus Monday testifying before the State Public Utilities Commission regarding the increased service of the buses now operating between Ashville and Columbus.

There is more than a mere possibility that three additional buses will be placed in service between the village and the capital city, totaling six in service each day. The proposed route for these three named conveyances is north from Ashville to the Lockbourne Road through the village and on to Columbus, connecting with the Air Plane Field, if and when it gets into operation.

Santa Clause fearing that it might not hold out that long and stay fine, Christmas being 348 days away yet, he ordered Marshal Walden and assistants to remove the Christmas tree and the fixings about it. This was all done in good order and the same spot will be there and waiting for another one of those fine Simon Rife cedars erected in season for Santa's next visit.

While there have been no deeds made or cash on the line offered as evidence that the airplane field to the north of us is a certainty, direct word from there given out by one concerned, said the underground telephone wires were being removed and that a power shovel had been brought to the Irvin Young farm. And too, that the lot of us, are expecting any day now, closed deals, with orders to move.

Bob Kirk, the former Scioto Grain elevator manager and occasionally down in a Kentucky military camp, was "up home here" the other evening for a short visit and is sure he'll like the war alright if it gets no worse than now.

Harry Hampson and Mrs. Blanche Baker, seriously sick a few days ago, are both reported improved. They are at homes of daughters in Columbus.

Marvin and Mrs. Lindsey were here from Columbus looking things over at the old home at Walnut Bank.

Hear ye, hear ye, court is now in session! That's the by-word of the Commercial Law class at the high school these last few days as the members have been holding trial, the idea being to put into practice some of the knowledge that has been acquired through study and discussion.

A disagreement of the jury in the first trial necessitated the forming of a new jury and a retrial of the case. The trial was conducted by the students in a manner which followed common court procedure. The charge, made by the plaintiff, Boyd Kuhlwein against the defendant, Paul Pettibone, was that of assault and battery. Attorneys representing Boyd were William Pettibone and Wilma Smith. Paul's lawyers were Bill Cain and Carl McClurg. The judge in the trial was Donald Duvall the first day and Eugene Wilson the second day. Elmer Neff fulfilled the duties of sheriff, bailiff, "janitor," etc.

Class members who performed on the jury were Dorothy Wellington, Geneva Pardee, Jack Foreman, Harold Myers, Leonard Campbell and Elroy Reid. It was Reid who caused disagreement in the first trial as he held out for a not-guilty verdict while the

PATRIOTIC BLOOD

THE giving of blood for the Army and Navy, to be stored and used as required for the wounded, is a new and impressive feature of this war. The present quota is set at 700,000 pints. The quantity will be kept as near that level as possible, for wide distribution according to requirements.

It is impressive to see how civilians, especially women, throng to the Red Cross quarters in the present "donation campaign" and offer their blood. This is more than a mere gesture. The donors feel that in a literal sense they are giving their blood to their country, and they are proud to do it. The wounded recipients in hospitals on battlefields need have no qualms about accepting it. Every drop is good American blood. And the wideness and the fitness of such distribution will go far toward making our nation of many origins literally, as well as figuratively "of one blood."

WATCH YOUR TIRES

AN automobile incident in Norfolk, Va., which gets wide circulation and many a laugh, is more than a joke. The motorist, returning to his parked car, found that somebody had jacked up a wheel and taken a tire. Strangely enough, a purse with a fine diamond ring in it, carelessly left on the back seat by the motorist, was still there. The thief left a note explaining his unusual behavior. It said: "Roses are red and violets blue; we like your jewels but your tires are new."

It was no joke, however, to the owner of that missing tire. And it will be no joke to thousands of other people around this big, motorized country if they don't keep a keener eye than usual on their cars and tires from now on. The freeze-up in production will soon make tires almost priceless. Our people are less given to theft than most of the other breeds, but thousands are going to be sorely tempted before this war is over.

Keep your car locked, keep your spare tire safe if you have one, and don't leave your car unnecessarily in places where people needing tires would be tempted to take yours.

It's an old axiom of prizefighters that a good little fellow can never beat a good big fellow. Japan take notice.

WORLD AT A GLANCE

—By— Charles P. Stewart

THAT OUR side won the last war but "lost the peace" is a remark to be heard, generally several times, in the course of every discussion of the kind of terms it'll behoove the world to agree on at the end of our present conflict. Presumably we and the rest of the democracies, including or plus Russia, will dictate 'em, and the Axis bunch, supposedly with all their fuchers, Tokyo militarists, duces and sympathetic caudillos liquidated, will have to acquiesce, whether they like our conditions or not. It won't be to our own interest, though, to lose another peace. So what we'll need to dictate will be some form of one that'll stick.

There are pretty sure to be differences of opinion on that subject. One school of thought is to the effect that Woodrow Wilson had the right idea, with his League of Nations plan, but that we Americans queered the whole thing by refusing to go into the league. Argueurs along this line severely pan the congressional isolationists of that period, who voted against Yankee participation.

Having been grown up and a listener-in on the debate, while it was progressing, I can't but feel that the recalcitrants made out a fairly good case. The league, as outlined by Woodrow, was to settle international disputes peacefully, if possible, but, if some single power or group of countries refused to accept a league award and took the warpath, then the league aggregation were to be bound, jointly, to lick the balky

outfit into subjection. In other words, if a war did start, every league nation automatically was to be in on it. The anti-league statesmen didn't like to commit the United States, sight unseen, to such a bargain.

Another League?
Today a post-war league or something similar to it is a scheme that has its advocates.

Another school of thinkers maintains that a post-war league, inclusive of all nationalities, shouldn't be our objective—that the democracies' job is to lick the totalitarianly-dominated peoples so flat that they'll completely disintegrate as fighting units, and won't be able to reassemble 'em selves "in at least 1,000 years," as I've heard it expressed. According to these reasoners, the Allies "lost the peace" in 1918 not because their terms were too hard, but because they weren't nearly hard enough.

Winston Churchill's notion appears to be not so much a League of ALL Nations, as a present and post-war Yankee-British alliance.

He has no objection, seemingly, to taking in the entire collection of democracies (the Americas generally, the Chinese and all the Germanly occupied little countries, as fast as they're available), but a permanent U. S.-British hookup is what he emphasizes, and he hasn't intimated that he favors a league inclusive of the Axis alignment, even after the Axis is totally skwashed. I don't see how he can omit Russia, though.

The proposition's advanced that

Daily Washington Merry-Go-Round

BY DREW PEARSON AND ROBERT S. ALLEN

PAN AMERICAN CONFERENCE

RIO DE JANEIRO—The Pan American Conference convening here tomorrow will be the first in history ever held during a major war. It also is going to be the toughest and the most important.

Pan American conferences were postponed during the first World War, also during the depression. The diplomats figured that they might be embarrassed by too many complicated problems. So they side-stepped them, and continued their safe and insipid Pan American policy of distributing stereopticon slides of the Andes to women's clubs and sending red and green parrots to adorn the patio of the Pan American Union in Washington. This was about as far as anyone wanted to go with Pan Americanism.

But this time, the Pan American nations have jumped into the middle of a question never faced before—namely, is the Western Hemisphere going to stick together as bonafide Good Neighbors against Hitler and Hirohito?

The man who will have a great deal of responsibility for the success of this conference is Undersecretary Sumner Wells, a straight-talking hombre who has lived with and bled for Latin Americans ever since he was out of college. But even more responsible is the man who is host at this conference, Foreign Minister Aranha of Brazil, a mixture of toughness, charm, and graciousness, who is as hard a rooter for U.S.A. friendship as anyone below the Rio Grande.

They will be supported by a lot of other able foreign ministers, ardently for action against the Axis—especially those representing the Caribbean countries and Central America.

AFTERMATH OF PEARL HARBOR

But just the same, the job of getting a united front even against the very real threat of invasion is not going to be easy. Reason for this is that a new story has developed in Latin America since December 7. It is the story of fear. And it has increased since the fall of Manila.

The average Latin American, like the average North American, always looked upon the Japs as clever little people, but nevertheless little people. One Argentine or one Brazilian, they figured, could lick six Japs with both hands tied behind his back. So now it is not easy to estimate the damage done to our prestige by the pushing around we (and the British) have received in the Pacific since December 7.

Higher-up Latin Americans understand our explanations; and the man in the street is sympathetic. Nevertheless, no one can overestimate the big boost it would give our prestige and Sumner Wells' job in Rio if the Navy could score a striking victory at this moment in the Pacific.

St. Vitus Holds Threat of Heart Trouble

By LOGAN CLENDENING, M. D.

WE SPOKE yesterday of the proper management of the winter disease, rheumatic fever. There is great danger from this disease, not in damage to the joints, but in the complications which may arise later in damage to the heart.

Dr. Clendening will answer questions on general interest only, and then only through his column.

Today I wish to speak of its twin, the nervous form of rheumatic fever which is called chorea, or St. Vitus dance.

Probably the two diseases are caused by the same germ in acute articular rheumatism in which first symptoms manifest themselves in the joints. In chorea the first symptoms show themselves in the nervous system.

St. Vitus was a saint of the middle ages who was recognized as having a particularly great power in curing the epidemic hysteria of the middle ages which was called the Dancing Mania. His name became attached to this inflammatory disease of the nervous system, although today what we call St. Vitus Dance has nothing to do with the hysterical dancing mania of the middle ages.

Symptoms of Chorea

The symptoms of chorea as seen in a child are a complete incoordination of the muscles and the inability to make coordinated movements. The nervous system, which is the seat of the infection, is so irritable that it sends out messages to the muscles which cause them to jerk and writhe so that the poor child makes grimaces and jerky movements and continually jerks his hands and feet.

When he starts to make any simple movement, such as putting food into his mouth, he may fall entirely to accomplish his objective, and at the best can accomplish any movement only by a series of very roundabout and jerky movements.

Chorea is associated with a slight fever, and in spite of its very different manifestations, it has the same potential dangers to the heart as acute rheumatic fever. In treatment, of recent years we have had a great improvement by inducing a high fever—the so-called hyperpyrexia treatment.

The patients are put in a cabi-

net, the temperature raised to 106° or 107° F. with consequent shortening of the period of acute nervous symptoms and also reduction in the amount of complications affecting the heart.

Use of Typhoid Vaccine

A variation of the fever treatment is the use of typhoid vaccine. This, of course, creates an artificial temperature and can be given once or twice daily, enough to keep the fever up until all signs of nervous irritation disappear.

Infected teeth and infected tonsils should be removed after the stage of convalescence has set in. Otherwise nothing else is especially important except, as in the case of acute rheumatic fever, to enjoin rest for a period of at least six weeks in order to prevent, as far as possible, all complications.

Although not quite so likely to cause heart complications as rheumatic fever with joint involvement, still the induction of a prolonged convalescence and rest is just as important in one condition as the other. It is perhaps easier to persuade the child with chorea to rest because the speech disturbances and incoordinated muscular movements prevent him from joining his playmates. As in rheumatic fever, most patients are under fifteen years of age.

If a case of chorea occurs in the neighborhood, don't think all the other children have caught it just because they indulge in mimicry.

QUESTIONS AND ANSWERS

M. W.—"Can ulcer of the stomach be cured? What treatment would you prescribe?"

Answer: Ulcer of the stomach can be cured in most cases, although it is quite a chronic disease. I would recommend a diet in which sweet, sour and spiced foods are eliminated. The best food for you is lean, broiled meat. Fats, but not fried foods, are well tolerated. Always have your bread toasted. In the way of medicine, I would recommend sodium bicarbonate and other alkaline substances.

No Refuge from Love

JERRY BRONFIELD

SYNOPSIS

MOLLA GLENDON comes to New York seeking refuge from the war that has swept across her native Norway, and from the bombs that shattered London, where she had fled from Oslo. She goes to work in the office of the Whitworth Construction company.

BURTON WHITWORTH, head of the company, was a friend of her deceased father. Molla meets TAYLOR WHITWORTH, handsome and dashing son of Burton, and NEIL LUNDQUIST, young field engineer of the company. KURT WILHELM, escapee from a Canadian internment camp, appears in New York to bedevil Molla.

YESTERDAY: Molla asks Kurt what he wants of her.

CHAPTER THIRTEEN

KURT WILHELM pursed his lips and blew a thin cloud of smoke ceilingward. He watched it intently for a few seconds with narrowed eyes.

"What I am doing here is not quite a point of public information," he said. "What I want with you? That is something different."

He took Molla's hand in his. "Perhaps I can make you forget—certain things. When I discovered you were in America, Molla, it felt good here." He put his fist over his heart.

"No, Kurt. No. That can never be again. Some things I will never forget, nor forgive, Kurt."

"Then you hate me?"

"It's no longer hate, although I did hate you once for what you did. Now—". She shrugged. "Now, I simply regard it as part of a horrible nightmare. You're an intelligent man, Kurt, you should understand."

"I do," he said. "I would be a hypocrite if I didn't say I do not blame you. But I thought perhaps you would see the light. Just as millions of others are seeing it."

"Light? They see no light, Kurt. Only here in America do people see light."

He ground his cigarette into an ash tray. "You sound like a silly school girl who has had propaganda shoved down her throat."

Molla laughed out loud. "Look who speaks of propaganda's being forced upon people," she said bitterly.

He smiled, but it wasn't a nice smile which fitted over his handsome features.

"Even if I could, I wouldn't force my attentions upon you, at least not sentimental attentions."

"That is what I mean, Kurt," she said slowly. "That is what I want to know. There are some things you are not telling me."

"When the time comes I shall tell you. There may be certain little ways you can help me while I am in New York. Needless to say, I shall expect your co-operation."

"There is no way in which I can

help you, Kurt."

His voice was grim. "Yes there are . . . and you will. You have no choice in the matter, or don't I make myself clear to you?"

It was clear to Molla. All too clear.

Molla tried not to let herself think of Kurt Wilhelm all week. All she could do was hope against hope that he would leave her alone.

She wanted particularly to forget about him because Saturday night was the big night with Tay.

Enid came in while she was getting dressed. Molla slipped into a blue and silver gown with a heart-shaped neckline and a wide flare from the hips down.

"I hope this is all right," she said anxiously. "It's the only evening gown I was able to salvage when I left London, and I just am not able to afford a new one right now."

Enid gave her a quick, critical look. "There are 10 million girls in America who would wish they had as little to worry about as you. It's beautiful."

Molla laughed nervously. "I hope so. I've never been to an American night club, you know. I'm just a little bit frightened. Do you think Tay will like me?"

"Like you? Listen, my little Norwegian nymph, that guy is—"

Enid paused. "All you'd need is six lessons from Madame Enid and you'd have him floundering at the end of your line. I guess that's what you don't have, though," she sighed.

"Have what?"

"A line. You know—the method or formula followed, by which each individual female of the species snares the male. Maybe you just called it something else in Norway."

Molla laughed. "Is it necessary?"

"In most cases, yes," Enid said. "Take a good look around you to-night wherever you go and you'll see various applications of it."

Two gorgeous orchids arrived by messenger.

"You're already traveling at one better than par for most girls," Enid said. "Here, let me fix them for you."

"The masterpiece is complete now," she commented, stepping back to survey the result.

They heard the bell ring downstairs. "That must be Tay now," Molla said.

Enid disappeared for a moment and came back with a short scarlet wrap. "Here, I want you to wear this tonight."

"Oh, Enid—it's beautiful, but I shouldn't. . . ."

"Nuts. Here, get into this. Okay, now you're off. Give him the full treatment."

Tay looked at her for a full min-

ute when she came down. "You're beautiful," he said.

Molla smiled and took his arm as they went down the steps. They heard a window open above them. Enid looked out.

"Have a good time," she called, and then to Tay, "That's fragile—handle with care, Mister Whitworth, or I'll scratch your eyes out."

Tay grinned and shivered. "She must have a lot of faith in me."

"Perhaps she has reason," Molla said lightly, "but we won't go into that."

"Oh-oh, I'll have to speak to the charming Miss Blair, Monday. She shouldn't be giving away office secrets like that."

"They had dinner first. It was the most sumptuous dinner Molla had ever eaten. The food, the service, the glittering, lush surroundings made her feel as though she were a part of a moving picture set."

"Like it?" he asked.

Her sparkling eyes were his answer.

"Can't spend much time here, though. We've got a show to make."

It was a musical, one of the sprightly, brilliantly staged, beauty-packed musicals she had read about in Oslo. Something she never thought she would see.

Out of the show and into brilliantly lighted Times Square. A kaleidoscope of glamor.

From the distance, it seemed, she heard Tay's voice.

"... Okay, hold tight. We're off on a tour. First stop, the Stork club."

Gone for the moment were Oslo and bomb-shattered London, the ugly gashes of war and misery. She forgot the thousand terrors she had known before coming to America.

The Stork club. Mecca of the famous and those who wanted to see the famous. The headwaiter bowed familiarly to Tay when they came in, and led them to a spot in the corner.

Tay leaned over the tiny table and pointed out celebrities, names she already was getting to know. Molla didn't want to appear gawlish but she managed to sneak in discreet glances at all those Tay pointed out.

Hollywood actresses, a baseball star, a big politician, a Broadway stage impresario. And the usual crop of debutantes.

They were there only a few minutes, it seemed, when Tay was on the move again. "Let's go somewhere where we can dance."

"But it's after one," Molla protested. "Rather late, isn't it, to be going somewhere else?"

"Early. We haven't even started. Come on. It isn't far. Just a little way down 52nd street."

A GOOD TIME to push forward on ambitious projects in matters where the element of social prestige or personality and charm is the influential factor. However, there is some danger of inciting antagonism from acting impulsively, over-aggressively and with lack of gentle and diplomatic approach. With such turbulence or emotionalism under control there should be a definite advantage with much success.

Those whose birthday it is may be on the eve of a year of definite and unexpected success and accomplishment, with the aid of those in power and of friendly attitude, lending greatly to cherished goals. But it will be necessary to suppress all strenuous and impetuous tactics, substituting charm and personal appeal for aggressive, forceful and tempest-

tuous measures. This is likely to incite antagonism and opposition rather than friendly cooperation. Be gracious and use finesse in asking favors and preferment.

A child born on this day while being aggressive, forceful, direct and energetic will also be endowed with charm and personality.

THIS is the time of year, opines Grandpappy Jenkins, when the average cold-bath addict wishes he wasn't so courageous.

PATRIOTIC BLOOD

THE giving of blood for the Army and Navy, to be stored and used as required for the wounded, is a new and impressive feature of this war. The present quota is set at 700,000 pints. The quantity will be kept as near that level as possible, for wide distribution according to requirements.

It is impressive to see how civilians, especially women, throng to the Red Cross quarters in the present "donation campaign" and offer their blood. This is more than a mere gesture. The donors feel that in a literal sense they are giving their blood to their country, and they are proud to do it. The wounded recipients in hospitals on battlefields need have no qualms about accepting it. Every drop is good American blood. And the wideness and the fitness of such distribution will go far toward making our nation of many origins literally, as well as figuratively "of one blood."

WATCH YOUR TIRES

AN automobile incident in Norfolk, Va., which gets wide circulation and many a laugh, is more than a joke. The motorist, returning to his parked car, found that somebody had jacked up a wheel and taken a tire. Strangely enough, a purse with a fine diamond ring in it, carelessly left on the back seat by the motorist, was still there. The thief left a note explaining his unusual behavior. It said: "Roses are red and violets blue; we like your jewels but your tires are new."

It was no joke, however, to the owner of that missing tire. And it will be no joke to thousands of other people around this big, motorized country if they don't keep a keener eye than usual on their cars and tires from now on. The freeze-up in production will soon make tires almost priceless. Our people are less given to theft than most of the other breeds, but thousands are going to be sorely tempted before this war is over.

Keep your car locked, keep your spare tire safe if you have one, and don't leave your car unnecessarily in places where people needing tires would be tempted to take yours.

It's an old axiom of prizefighters that a good little fellow can never beat a good big fellow. Japan take notice.

WORLD AT A GLANCE

—By—
Charles P. Stewart

THAT OUR side won the last war but "lost the peace" is a remark to be heard, generally several times, in the course of every discussion of the kind of terms it'll behoove the world to agree on at the end of our present conflict. Presumably we and the rest of the democracies, including or plus Russia, will dictate 'em, and the Axis bunch, supposedly with all their fuhrers, Tokyo militarists, duces and sympathetic caudillos liquidated, will have to acquiesce, whether they like our conditions or not. It won't be to our own interest, though, to lose another peace. So what we'll need to dictate will be some form of one that'll stick.

There are pretty sure to be differences of opinion on that subject. One school of thought's to the effect that Woodrow Wilson had the right idea, with his League of Nations plan, but that we Americans queered the whole thing by refusing to go into the league. Argueurs along this line severely pan the congressional isolationists of that period, who voted against Yankee participation.

Having been grown up and a listener-in on the debate, while it was progressing, I can't but feel that the realists made out a fairly good case. The league, as outlined by Woodrow, was to settle international disputes peacefully, if possible, but, if some single power or group of countries refused to accept a league award and took the warpath, then the league aggregation were to be bound, jointly, to lick the balky

outfit into subjection. In other words, if a war did start, every league nation automatically was to be in on it. The anti-league statesmen didn't like to commit the United States, sight unseen, to such a bargain.

Another League?

Today a post-war league or something similar to it is a scheme that has its advocates. Another school of thinkers maintains that a post-war league, inclusive of all nationalities, shouldn't be our objective—that the democracies' job is to lick the totalitarianly-dominated peoples so flat that they'll completely disintegrate as fighting units, and won't be able to reassemble 'em-selves "in at least 1,000 years," as I've heard it expressed. According to these reasoners, the Allies "lost the peace" in 1918 not because their terms were too hard, but because they weren't nearly hard enough.

Winston Churchill's notion appears to be not so much a League of ALL Nations, as a present and post-war Yankee-British alliance. He has no objection, seemingly, to taking in the entire collection of democracies (the Americas generally, the Chinese and all the German-occupied little countries, as fast as they're available), but a permanent U. S.-British alliance, and he hasn't intimated that he favors a league inclusive of the Axis alignment, even after the Axis is totally skewered. I don't see how he can omit Russia, though. The opposition's advanced that

PAN AMERICAN CONFERENCE

RIO DE JANEIRO—The Pan American Conference convening here tomorrow will be the first in history ever held during a major war. It also is going to be the toughest and the most important.

Pan American conferences were postponed during the first World War, also during the depression. The diplomats figured that they might be embarrassed by too many complicated problems. So they side-stepped them, and continued their safe and insipid Pan American policy of distributing stereopticon slides of the Andes to women's clubs and sending red and green parrots to adorn the patio of the Pan American Union in Washington. This was about as far as anyone wanted to go with Pan Americanism.

But this time, the Pan American nations have jumped into the middle of a question never faced before—namely, is the Western Hemisphere going to stick together as bonafide Good Neighbors against Hitler and Hirohito?

The man who will have a great deal of responsibility for the success of this conference is Undersecretary Sumner Wells, a straight-talking hombre who has lived with and bled for Latin Americans ever since he was out of college. But even more responsible is the man who is host at this conference, Foreign Minister Aranha of Brazil, a mixture of toughness, charm, and graciousness, who is as hard a rooster for U.S.A. friendship as anyone below the Rio Grande.

They will be supported by a lot of other able foreign ministers, ardently for action against the Axis—especially those representing the Caribbean countries and Central America.

AFTERMATH OF PEARL HARBOR

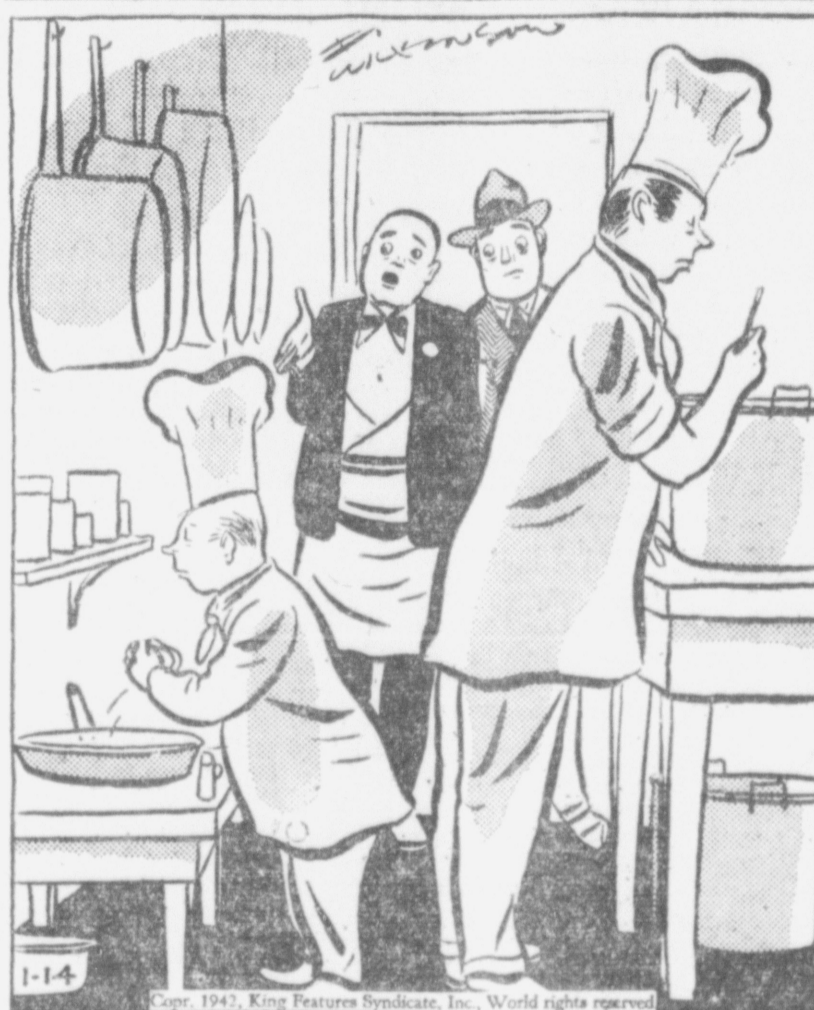

But just the same, the job of getting a united front even against the very real threat of invasion is not going to be easy. Reason for this is that a new story has developed in Latin America since December 7. It is the story of fear. And it has increased since the fall of Manila.

"I do," he said. "I would be a hypocrite if I didn't say I do not blame you. But I thought perhaps you would see the light. Just as millions of others are seeing it."

"Light? They see no light. Kurt. Only here in America do people see light."

He ground his cigarette into an ash tray. "You sound like a silly school girl who has had propaganda shoved down her throat."

Molla laughed out loud. "Look who speaks of propaganda's being forced upon people," she said bitterly.

He smiled, but it wasn't a nice smile which flitted over his handsome features.

"Even if I could, I wouldn't force my attentions upon you, at least not sentimental attentions."

"That is what I mean, Kurt," she said slowly. "That is what I want to know. There are some things you are not telling me."

"When the time comes I shall tell you. There may be certain little ways you can help me while I am in New York. Needless to say, I shall expect your co-operation."

"There is no way in which I can help you, Kurt."

Words of Wisdom

Lying is a hateful and accursed vice. We have no other tie upon one another, but our word. If we did but discover the horror and consequences of it, we should pursue it with fire and sword, and more justly than other crimes.—Montaigne.

Hints on Etiquette

A working girl must have a foundation spirit of fair play to have good business manners. Her attitude toward her employer and fellow workers must be "square."

Today's Horoscope

Give your best to everything you do, you who have birthdays today. Be satisfied only with the finest results of every effort and you will be very successful. You have marvelous talents. During the next year promotion and financial gain come to you from expected and unexpected sources. Push your business to the utmost and seek favors. An elder or stranger will cause you some annoyance. For the child who is born on this date much success is foreseen, and he or she will go far. Employers and superiors will be especially helpful. The intellectual faculties will be of a very high order.

help you, Kurt." His voice was grim. "Yes there are . . . and you will. You have no choice in the matter, or don't I make myself clear to you?"

It was clear to Molla. All too clear.

Molla tried not to let herself think of Kurt Wilhelm all week. All she could do was hope against hope that he would leave her alone.

She wanted particularly to forget about him because Saturday night was the big night with Tay.

Enid came in while she was getting dressed. Molla slipped into a blue and silver gown with a heart-shaped neckline and a wide flare from the hips down.

"I hope this is all right," she said anxiously. "It's the only evening gown I was able to salvage when I left London, and I just am not able to afford a new one right now."

Enid gave her a quick, critical look. "There are 10 million girls in America who would wish they had as little to worry about as you. It's beautiful."

Molla laughed nervously. "I hope so. I've never been to an American night club, you know. I'm just a little bit frightened. Do you think Tay will like me?"

"Like you? Listen, my little Norwegian nymph, that guy is—"

Enid paused. "All you'd need is six lessons from Madame Enid and you'd have him floundering at the end of your line. I guess that's what you don't have, though," she sighed.

"Have what?"

"A line. You know—the method or formula followed, by which each individual female of the species snags the male. Maybe you just called it something else in Norway."

Molla laughed. "Is it necessary?"

"In most cases, yes," Enid said. "Take a good look around you tonight wherever you go and you'll see various applications of it."

Two gorgeous orchids arrived by messenger.

"You're already traveling at one better than par for most girls," Enid said. "Here, let me fix them for you."

"The masterpiece is complete now," she commented, stepping back to survey the result.

They heard the bell ring downstairs. "That must be Tay now," Molla said.

Enid disappeared for a moment and came back with a short scarf-let wrap. "Here, I want you to wear this tonight."

"Oh, Enid—it's beautiful, but I shouldn't . . ."

"Nuts. Here, get into this. Okay, now you're off. Give him the full treatment."

Tay looked at her for a full minute when she came down. "You're beautiful," he said.

Molla smiled and took his arm as they went down the steps. They heard a window open above them. Enid looked out.

"Have a good time," she called, and then to Tay, "She's fragile—handle with care, Mister Whitworth, or I'll scratch your eyes out."

Tay grinned and shivered. "She must have a lot of faith in me."

"Perhaps she has reason," Molla said lightly, "but we won't go into that."

"Oh-oh, I'll have to speak to the charming Miss Blair, Monday. She shouldn't be giving away office secrets like that."

They had dinner first. It was the most sumptuous dinner Molla had ever eaten. The food, the service, the glittering, lush surroundings made her feel as though she were a part of a moving picture set.

"Like it?" he asked.

Her sparkling eyes were his answer.

"Can't spend much time here, though. We've got a show to make."

It was a musical, one of the sprightly, brilliantly staged, beauty-packed musicals she had read about in Oslo. Something she never thought she would see.

Out of the show and into brilliantly lighted Times Square. A kaleidoscope of glamor.

From the distance, it seemed, she heard Tay's voice.

"... Okay, hold tight. We're off on a tour. First stop, the Stork club."

Gone for the moment were Oslo and bomb-shattered London, the ugly gashes of war and misery. She forgot the thousand terrors she had known before coming to America.

The Stork club. Mecca of the famous and those who wanted to see the famous. The headwater bowed familiarly to Tay when they came in, and led them to a spot in the corner.

Tay leaned over the tiny table and pointed out celebrities, names she already was getting to know. Molla didn't want to appear gawish but she managed to sneak in discreet glances at all those Tay pointed out.

Hollywood actresses, a baseball star, a big politician, a Broadway stage impresario. And the usual crop of debutantes.

They were there only a few minutes, it seemed, when Tay was on the move again. "Let's go somewhere where we can dance."

"But it's after one," Molla protested. "Rather late, isn't it, to be going somewhere else?"

"Early. We haven't even started. Come on. It isn't far. Just a little way down 52nd street."

Review of 'Big Family' Marks Meeting of Class

Westminster Group Gathers; Flag To Be Purchased

SOCIAL CALENDAR

An unusually fine program was presented Tuesday at the meeting of the Westminster Bible Class in the social room of the Presbyterian Church, Mrs. Blanche Moteschman entertaining the members with a splendid review of the book, "Big Family", by Bellamy Partridge. The book, which is a recent publication, ranks as sixth best seller in current non-fiction.

In her opening remarks, Mrs. Moteschman explained her choice of the book as the desire to give entertainment to the group, rather than to discuss problems involved in many of the newer books of fiction. The book chosen was an excellent account of happenings in a typically large and very boisterous family of the late 1890's, the family of the author. In the book, Mr. Partridge presents unrestrained reports of his escapades and those of his brothers and sisters. In her review, Mrs. Moteschman gave a clever running account of these incidents of family life and presented such an excellent contrast between living standards of that time and the present, that the class members were in gales of laughter during the entire talk.

Mrs. Orin W. Dreisbach, president, read a fine editorial on "Freedom" taken from an issue of the Louisville Courier of several years ago. The class voted to present a Christian flag to the church, the flag to conform in size and standard to the American flag recently purchased for the church by the Women's Social Club.

The class also voted \$3 to the Red Cross campaign. During the informal social hour, cookies and tea were served. The hospitality committee included Mrs. H. O. Pile, Mrs. Arthur Steele, Miss Edith Haswell, Mrs. Lee Shaner and Mrs. L. H. Mebs.

The next meeting, February 3, will be at the home of Mrs. B. T. Hedges, North Parkway Street.

Circleville Benevolent Association
The Circleville Benevolent Association gave assistance to more families in December than in any other one month during 1941, according to the report of Miss Clara Southward, case worker, presented at the Tuesday meeting in the city cottage. Miss Southward mentioned that this was due to the generosity of individuals, organizations and business houses of Circleville. More than 100 families were assisted in some way.

Clothing and household supplies were received from 25 individuals; food from 12 individuals and 13 organizations. Cash donations and gifts of sales tax stamps were also received.

Supplies given to 62 families included 24 pairs of shoes, 13 coats or sweaters, 113 other garments and 92 miscellaneous articles.

Eighteen families were on the daily milk list and groceries were purchased for three.

Sixty families were remembered at Christmas time, 13 were given grocery orders, two were given coal and 45 families received baskets of food packed at the cottage. The baskets were delivered to the homes in various parts of the city December 24 in trucks furnished by the City Service Department.

The Hill Implement Co. and the Emerald Canning Co. Nineteen other families in the community were remembered by various organizations.

A few days after Christmas, the American Legion sent the surplus bags of candy and nuts to the city cottage for distribution.

Ninety five families were visited by Miss Southward during the month and 26 visits were made in behalf of clients. There were 137 office interviews; 57 personal interviews in behalf of applicants and 48 interviews by phone.

FOOD TIPS FROM THE COOKBOOKLETS

Every Month Brings Delightful New Cookbooklet Menu Suggestions

Ice cream is a summer menu "must," but it is doubly welcome if served in a crunchy ring of caramel cereal flakes. Thousands of aids to Menu planning may be found in the final Cookbooklet, released this week.

If he loves you in December as he did in May, no doubt you have been serving him the appetizing kind of meals that keep him happy, summer or winter. Which means that you plan your menus to fit the season as well as your appetite and your pocketbook. The 20th Cookbooklet, "Menus for Every Day in the Year," released this week is just what you want! Take July, for instance. Sliced cold lamb, Duchess potato ring with minted peas, tomato cucumber salad bowl, gooseberry pie and iced coffee would look pretty good to him in July. But when the cold winds of January blow he'd be much more interested in: Vegetable soup, roast loin of pork, mashed parsnips, hot chicory salad bowl, deep-dish apple pie and coffee or milk. One of the most practical features of the new Cookbooklet is that its menus are given month by month so that seasonal foods may be appropriately included and holiday dishes given their proper place.

For every dish suggested in these thousands of menu plans, a number will refer you to whichever one of the previous 19 Cookbooklets contains the recipe for it. You couldn't forget the opening of the berry season when you are confronted with the picture of the luscious strawberry shortcake in the April menu pages. The shortcake recipe may be found in the 12th Cookbooklet, "250 Delectable Desserts." The menu suggestions constantly remind you of the importance of fish, liver, vegetables and dairy products to add health to your meals. They recommend attractive dishes to tempt your appetite and add beauty to your table. Recipe references are given even for the appetizers at each meal.

Thus by using the 19 recipe booklets and the 20th menu booklet you will have a kitchen library that will solve all your food problems. The first 19 books deal with: Snacks... Leftovers... Cakes... Poultry and Game Birds... Pies and Pastries... Soups... Salads... Meat... Fish and Sea Food... Eggs... Vegetables... Desserts... Potatoes... Sandwiches... Candy

such method as in the opinion of the Commissioner of Internal Revenue does clearly reflect the income.

The regulations recognize that no uniform method of accounting can be prescribed for all taxpayers, and the law contemplates that each taxpayer shall adopt such forms and systems of accounting as are in his judgment best suited to his purpose. The methods of accounting most generally used are (1) the cash receipts and disbursement method, and (2) the accrual method. The regulations provide that in order to reflect net income correctly, inventories at the beginning and end of each taxable year are necessary in every case in which the production, purchase, or sale of merchandise is an income-producing factor, and that in any case in which it is necessary to use an inventory, no method of accounting in regard to purchases and sales will correctly reflect income except an accrual method.

Each taxpayer is required by law to make a return of his true income and under the regulations he is required to maintain such accounting records as will enable him to do so. His books and re-

Circleville January 30, both afternoon and evening.
Mrs. George Valentine, president of the Merry-Makers' Circle, announced the regular meeting of this organization for Friday at 2 p. m. in the Red room, Masonic Temple. Members are asked to take their own sewing to the meeting as supplies are not available for the Red Cross work planned.

The Past Matrons' and Patrons' Circle will meet Thursday in the rooms of the Business and Professional Women's Club. The meeting will begin at 7:30 p. m.

Circle 4
Circle 4 of the W. S. C. S. of the Methodist Church held its January meeting Tuesday at the home of Mrs. O. J. Towers, East Union Street. Mrs. M. F. Parrett, chairman, led the opening service and received the routine reports.

Mrs. Lloyd Sprouse was program leader and read the scripture lesson. Mrs. Parrett preceded the group with a solo preceding the interesting talk on "The Ethel Harpist Home", by Mrs. G. H. Adkins. Readings and amusing poems were presented by Mrs. Hurd, Mrs. Clyde Cook, Mrs. Glen Hines, Mrs. B. F. Harden, Mrs. Meyers, Mrs. Thorne, Mrs. Skinner and Mrs. Carmean. Mrs. C. F. Abernathy told the latest news from her son-in-law, who is a missionary abroad.

Marilyn Richards recited a poem and Nancy Lee Shimp sang "You are my Sunshine" at the close of the program. Delightful refreshments were served to the 20 members and five guests at the meeting. The visitors were Mrs. Charles Niles, Mrs. Adkins, Mrs. Dwight Steele, Marilyn Richards and Nancy Lee Shimp.

The next meeting, February 10, will be at the home of Mrs. Elmon Richards, Washington Township.

Loyal Daughters' Class
The Loyal Daughters' Class of the United Brethren Church held its January session Tuesday in the community house with the devotional program in charge of Mrs. John Kerns.

After group singing and readings by Mrs. Frank Hawkes, Mrs. Howard Cook and Mrs. Walter Mavis, the scripture lesson from Psalm 24 was read and discussed by Mrs. Kerns. Mrs. A. N. Gruesser closed the devotionals with prayer.

The short business session was in charge of Miss Gladys Noggle, president.
A contest conducted by Mrs. Clarence Valentine was won by Mrs. Howard Cook.
Lunch was served to 28 members and visitors by the hospitality committee. Mrs. Robert Griesheimer, Miss Maggie Mavis and Miss Lena Wilson.

Anniversary Observed
Honoring Mr. and Mrs. Dorah Morris of near Kingston on their twenty-ninth wedding anniversary, a group of friends gathered at their home Sunday for a surprise cooperative dinner. The delightful affair also marked the

birthday anniversary of Mrs. Morris.
The guest list included Mr. and Mrs. Turney Pontius and Mr. and Mrs. Clarence Dumm of Pickaway Township; Mr. and Mrs. Russell Cryder, Chillicothe; Mr. and Mrs. F. R. N. Redfern, Mr. and Mrs. Charles Leasure and Miss Florence Bowsher of Adelphi; Mr. and Mrs. Harvey Large and family of Columbus; Mr. and Mrs. Elmer Dodd, Mr. and Mrs. A. E. Young, Mrs. Owen Morris, Mr. and Mrs. Fred Long, the Misses Mary Etta Young, Mildred and Clarabelle Kerns and Virginia Morris of the Kingston community.

Mr. and Mrs. Morris were presented several useful gifts.

Kingston Garden Club
Mr. and Mrs. Renick Dunlap of Congo Farm, Pickaway Township, delightfully entertained the Kingston Garden Club at the annual cooperative dinner, Tuesday. Twenty five guests were present for the evening, members and their families being included in the group.

Mrs. Ralph Head, president of the club, conducted a brief business session, during which \$5 was voted to the Ross County Red Cross campaign.

Mrs. Charles Fox and Mrs. Carrie Holderman were announced as hostesses for the next session, February 3.

Marriage Date Announced
Miss Judith Radebaugh, daughter of Mr. and Mrs. Arthur W. Radebaugh of Lancaster, has selected January 24 as the date for her marriage to Mr. William Finley Brown, son of Dr. and Mrs. Carl W. Brown of that community. The wedding will be at 8:30 p. m. in the First Methodist Church of Lancaster with Dr. Walter P. Castoe officiating.

Mrs. Robert H. Andre, the former Miss Betty Pickering, will be Miss Radebaugh's only attendant. Mr. Cyrus L. Fulton will serve Mr. Brown as best man, and the ushers will include Mr. George T. Johnson Jr., Mr. Robert Charlton and Mr. Richard Malone.

The bridal party and members of the immediate families will be entertained at a small reception at Hotel Lancaster by the parents of the bride, following the church ceremony.

Both Miss Radebaugh and Mr. Brown are widely known in Circleville where they have been entertained frequently by the younger social set.

Harper Bible Class
The Harper Bible Class will meet Friday at 7:30 p. m. at the home of Mrs. James Dancy, Northridge Road. Mr. and Mrs. Carl Porter will be assisting hosts.

Phi Beta Psi
Plans for a party for Founders' Day were discussed by members of the Phi Beta Psi Sorority at the meeting Tuesday in the club rooms, Masonic Temple. Miss Helen Liston, Miss Peggy Parks, Miss Pearl Marshall and Mrs. Elmer Yeatts were named members of the general committee for the tea on the anniversary which will be Sunday, February 15. Members of the London and Columbus will be invited for the affair.

Mrs. Delos Marcy, president of the sorority, led the meeting which had 12 members in attendance.

The sorority voted to give \$10 to the Red Cross campaign. Mrs. Marcy explained the Victory book drive to the members. Light refreshments were served by Mrs. Yeatts and Mrs. Bernice Immell, hostesses for the evening.

Weekend Visit
Private Robert Kirkpatrick of Fort Knox, Ky., was a weekend visitor at the home of his parents, Mr. and Mrs. Galen Kirkpatrick, of New Holland. Mr. and Mrs. Kirkpatrick accompanied him as far as Cincinnati, Sunday, where he joined a group of cadets for the remainder of the trip to the fort.

Mr. and Mrs. Kirkpatrick were guests at the Netherlands-Plaza Hotel until Monday.

Musical Program
Pupils of Mrs. Leon Van Vleet presented a well-chosen musical program Tuesday during chapel at Jackson Township School. Piano solos were played by Mrs. Paul Thompson, Eleanor Bumgarner, Emma Jean Newlon and Ramona Reedy, and one duet by Eleanor and Nell Louise Bumgarner.

The program closed with group singing of "The Star-Spangled Banner" with Mrs. Thompson at the piano. Miss Pearl Marshall,

music supervisor of the school, directed.
The devotions were led by the Rev. Ernest D. Bartlett of South Bloomfield.

D. A. R.
Miss Leah Ann Crites of Stouts-ville will be heard in two groups of songs at the meeting of Pickaway Plains Chapter, Daughters of the American Revolution.

Tuesday, January 20, at the home of Miss Mary Heffner, East Mound Street. Mrs. W. H. Crites will be piano accompanist for her daughter.

Dr. Howard Jones will be heard in an address on "The American Indian". Mrs. William Mack will present a 10-minute talk on National Defense.

The assisting hostesses include Mrs. James Adams, Mrs. Dwight Steele, Miss Florence Dunton, Mrs. Charles Pugsley, Mrs. Lee Shaner and Mrs. H. O. Pile.

Luther League
Twenty-four members and guests attended the meeting of Christ Lutheran Luther League, Tuesday, at the home of Mr. and Mrs. Lyle Davis, Jackson Township. Mrs. Noah List, president, led the devotionals. Mrs. G. L. Troutman reading the missionary topic, "Forward March." The topic discussion was led by the Rev. Mr. Troutman.

Mr. and Mrs. Lawrence Krimmel arranged the program which included readings by Mary Katherine Krimmel, Doris Hulse, Melba Barthelmas and Mrs. Paul Thompson.

Games were enjoyed and refreshments served during the social hour.
Miss Helen Kern will be hostess at the next meeting, February 10.

Mrs. Grant Hostess
Mrs. Lloyd Wardell of Columbus played a substitute hand Tuesday when Mrs. Fred Grant entertained her contract bridge club at her home on South Pickaway Street.

Two tables were in play during the evening. Mrs. Wardell and Mrs. Ned Plum carrying home the prizes for scores.
Mrs. Grant served a dessert lunch after the games.
Mrs. James Lyle will entertain the club Tuesday, January 20.

FOOD TIPS FROM THE COOKBOOKLETS

Every Month Brings Delightful New Cookbooklet Menu Suggestions

Ice cream is a summer menu "must," but it is doubly welcome if served in a crunchy ring of caramel cereal flakes. Thousands of aids to Menu planning may be found in the final Cookbooklet, released this week.

If he loves you in December as he did in May, no doubt you have been serving him the appetizing kind of meals that keep him happy, summer or winter. Which means that you plan your menus to fit the season as well as your appetite and your pocketbook. The 20th Cookbooklet, "Menus for Every Day in the Year," released this week is just what you want!

Take July, for instance. Sliced cold lamb, Duchess potato ring with minted peas, tomato cucumber salad bowl, gooseberry pie and iced coffee would look pretty good to him in July. But when the cold winds of January blow he'd be much more interested in Vegetable soup, roast loin of pork, mashed parsnips, hot chowder salad bowl, deep-dish apple pie and coffee or milk. One of the most practical features of the new Cookbooklet is that its menus are given month by month so that seasonal foods may be appropriately included and holiday dishes given their proper place.

For every dish suggested in these thousands of menu plans, a number will refer you to which ever one of the previous 19 Cookbooklets contains the recipe for it. You couldn't forget the opening of the berry season when you are confronted with the picture of the luscious strawberry shortcake in the April menu pages. The shortcake recipe may be found in the 12th Cookbooklet, "250 Delectable Desserts." The menu suggestions constantly remind you of the importance of fish, liver, vegetables and dairy products to add health to your meals. They recommend attractive dishes to tempt your appetite and add beauty to your table. Recipe references are given even for the appetizers at each meal.

Thus by using the 19 recipe booklets and the 20th menu booklet you will have a kitchen library that will solve all your food problems. The first 19 books deal with . . . Snacks . . . Leftovers . . . Cakes . . . Poultry and Game Birds . . . Pies and Pastries . . . Soups . . . Salads . . . Meat . . . Fish and Sea Food . . . Eggs . . . Vegetables . . . Desserts . . . Potatoes . . . Sandwiches . . . such method as in the opinion of the Commissioner of Internal Revenue does clearly reflect the income.

The regulations recognize that no uniform method of accounting can be prescribed for all taxpayers, and the law contemplates that each taxpayer shall adopt such forms and systems of accounting as are in his judgment best suited to his purpose. The methods of accounting most generally used are (1) the cash receipts and disbursement method, and (2) the accrual method. The regulations provide that in order to reflect net income correctly, inventories at the beginning and end of each taxable year are necessary in every case in which the production, purchase, or sale of merchandise is an income-producing factor, and that in any case in which it is necessary to use an inventory, no method of accounting in regard to purchases and sales will correctly reflect income except an accrual method.

Each taxpayer is required by law to make a return of his true income and under the regulations he is required to maintain such accounting records as will enable him to do so. His books and re-

cords must be kept at all times available for inspection by internal-revenue officers and retained as long as the contents thereof may become material in the administration of any internal revenue law

SOLDIERS COME HERE THURSDAY

Fort Hayes Quintet Will Play Athletic Club; Prelims Booked

A big sports card is on tap at the Circleville Athletic Club gymnasium Thursday evening when a team comprised of Fort Hayes soldiers invades the local ball-wick to play the Athletic Club quintet.

The Fort Hayes team lists several ex-college athletes and has been compiling a good record. Some of the members of its roster are Wiles of Wooster College, Dicks of Niagara University, Reel of Akron University, McClain of Paducah Junior College, Kentucky, and Cook of Indiana. The team is coached by Captain Haynes.

On the C. A. C. team will be Jerry Miller, Red Roush, Wilford Cropp, Verlin Blankenship and Schiff, the latter a Ross County coach who has appeared on the local court at various times with Chillicothe teams.

Two preliminaries are scheduled also with the Emory Club meeting an unnamed foe at 7 o'clock and the Blue Ribbon Dairy being scheduled at 8 o'clock.

Dancing is planned after the basketball feature.

SOLDIERS COME HERE THURSDAY

Fort Hayes Quintet Will Play Athletic Club; Prelims Booked

A big sports card is on tap at the Circleville Athletic Club gymnasium Thursday evening when a team comprised of Fort Hayes soldiers invades the local ball-wick to play the Athletic Club quintet.

The Fort Hayes team lists several ex-college athletes and has been compiling a good record. Some of the members of its roster are Wiles of Wooster College, Dicks of Niagara University, Reel of Akron University, McClain of Paducah Junior College, Kentucky, and Cook of Indiana. The team is coached by Captain Haynes.

On the C. A. C. team will be Jerry Miller, Red Roush, Wilford Cropp, Verlin Blankenship and Schiff, the latter a Ross County coach who has appeared on the local court at various times with Chillicothe teams.

Two preliminaries are scheduled also with the Emory Club meeting an unnamed foe at 7 o'clock and the Blue Ribbon Dairy being scheduled at 8 o'clock.

Dancing is planned after the basketball feature.

MT. UNION FIVE HOGAN TO LEAD SHOWS CLASS IN GOLFING STARS OHIO CAGE RACE IN \$5,000 JOUST

By International News Service

Mt. Union's seventh consecutive victory and fourth straight Ohio Conference triumph at the expense of Heidelberg, Toledo's return to winning form at Cincinnati, and setbacks sustained by Dayton and Ohio Northern were highlights of collegiate basketball activity in the state last night.

Paced by Jimmy DeWitt who scored 18 points, Mt. Union showed terrific power in crushing the Heidelberg Student Princes, 78 to 44 after trailing 14 to 12 in the first quarter. By half time the defending champions were out in front, 36 to 21, and thereafter it was a romp.

Toledo bounced back from a 43-37 defeat at the hands of Marshall to subdue Cincinnati's Bearcats, 50 to 41, in a game which saw Bob Gerber, the state's leading scorer, totaling 19 points, Frank Clemons accounted for 12 and Bill Mire, substitute Cincinnati center, connected for 11.

Ohio Northern's first Conference defeat in four starts came at the hands of Wittenberg which rallied in the closing minutes to win, 48 to 47. A free throw by Wotjen settled the contest in the closing seconds. Wotjen took scoring honors with 15 points while Cotterman, Northern guard, was good for 10.

The Ohio U. Dayton battle which went to Ohio U. 36-25 had a spectacular finish the Bobcats rallying from a 35-26 deficits to come within one point only to miss three shots at the closing seconds.

BROWNIES FIND FINANCIAL WAY DIFFICULT ONE

ST. LOUIS, Jan. 14—Those interested in the declining fortunes of the St. Louis Browns expected today an early reconsideration of President Donald Barnes' plea for permission to play 14 night games at Sportsman's Park during the 1942 season.

That something in the nature of a blood transfusion for the ailing finances of the Browns is imperative was indicated in Barnes' report to stockholders yesterday that the club had gone into the red about \$100,000 last season, making an approximate half million loss during the last five years.

The immediate future of the club appeared to be taken care of when President Will Harridge of the American League declared in Chicago that the league, if necessary would operate the club during the 1942 season, but the problem of getting the Browns back on a paying basis still remained.

It was understood Barnes feels he has a good chance to better the finances of the club if he is allowed 14 night games here instead of the seven permitted at present.

C. of C. Acts to Relieve Court Street Traffic Congestion

'BOTTLENECK' IN NORTHEAST TO BE ELIMINATED

Parking North of Pleasant Street May Be Banned; Committee Set Up

PARALLEL LINES ORDERED

Organization Names Board Of Directors To Serve For Next Year

Circleville Chamber of Commerce began action Tuesday night to cope with problems which may arise with the development of two Army projects within the local trading area, an airport north of Ashville and a cantonment in the southwestern part of the county.

Two committees were appointed, a housing committee, whose duties will be to investigate the possibilities of locating defense workers in the city and a street committee which will recommend that city officials take immediate action to clear North Court Street of congestion in compliance with requests made by the State Highway Department.

Members of the housing committee are Mack Parrett, T. E. Wilson and A. V. Osborn. On the street committee are Harold Limback, Tom Gilliland and W. Joe Burns.

Mayor Ben H. Gordon said Wednesday that state highway officials had asked that Court Street, Route 23, be cleared of congested traffic and bottlenecks eliminated with a proposed road improvement project in view.

Mayor Gordon said he had instructed Service Director Clarence Helvering to paint parallel lines on Court Street as soon as the weather clears. As soon as the parallel lines have been painted, parallel parking will be put in effect and there will be no double parking, the Mayor said. City council already has passed an ordinance providing for parallel parking on Court and Main Streets.

Solution Possible

The mayor indicated that a solution of the Court Street traffic congestion problem might be worked out to the state's satisfaction if parked cars are banned from Court, north of Pleasant Street, and with parallel parking enforced on the remainder of the highway through the city.

Chamber of Commerce members, voted unanimously to sponsor a Corn and Soybean Show again this year. The show probably will be held the latter part of February. The Chamber's agricultural committee is in charge of the program.

Speaker at the meeting was Mrs. Fannie Brooks, county AAA field woman, who discussed the county's Food for Defense program. Mrs. Brooks pointed to the importance of food products in the present war with the Axis. "Food is an important munition. It will win the war and it will right the peace," she declared.

Defending the farmer, who has seen prices for his products rise rapidly since the war, the speaker pointed out that the farmer's share of the consumer's food-dollar was 42 cents. Six cents of the food-dollar goes for transportation, 20 cents for processing, eight cents to the wholesaler and 24 cents to the retailer, she said.

Three new directors will serve on the Chamber of Commerce board for 1942. They are W. Joe Burns, Eldred Cayce and A. V. Osborn. Other directors reelected were F. K. Blair, R. L. Brehmer, T. O. Gilliland, George Griffith, Leslie D. May, Dan McClain, Dwight Steele and Clark Will.

Cynics who said nobody could lick Hitler evidently forgot about one man—namely Hitler.

They Head Revival Service

THE Rev. and Mrs. Eddie Burnum of Gallipolis are appearing at the Church of Christ in Christian Union, Circleville, in a series of revival meetings which started January 11 and will continue through January 23. The Rev. Mr. Burnum is the evangelist and Mrs. Burnum conducts the singing. The Rev. O. L. Ferguson is the host pastor.

Evans Grocery Company To Open Store in City

The Evans Grocery Company, which has its main offices at Gallipolis and operates stores in Ohio and West Virginia, will open a meat, fruit and vegetable market in Circleville Friday at 116 West Main Street in the Clifton Building formerly occupied by the A. & P. Company store.

The store will be operated by R. L. Thompson of Athens who will have charge of the meat department, and by Harlan Richard of Gallipolis who will manage the vegetable department.

The room has been redecorated and remodeled and new fixtures have been installed.

The Evans Grocery Company sends its own truck weekly directly to the fruit market in Florida and offers garden fresh produce from the southern area. It also manages its own packing plant in Gallipolis.

JAMES BOGGS STARTS BASIC FLYING TRAINING

Mr. and Mrs. Ralph Boggs, 430 South Washington Street, have been informed that their son, James, a Flying Cadet in Uncle Sam's Air Force, has been advanced from primary to basic training and has been transferred from Camden, S. C., to Shaw Field, Sumter, N. C., for additional training.

He expects to complete his work by May and then will have to wait until he becomes 21 in June before he can receive his commission.

Promotion from primary to basic training comes after 60 hours in the air.

Young Boggs is a graduate of Pickaway Township High School where he is an all-district basketball star and attended Duke University, Durham, N. C., before joining the air corps.

MOTHER, THREE CHILDREN KILLED IN HOME FLAMES

DEARBORN, Mich., Jan. 14—A young mother and her three small children burned to death today when fire destroyed the small cottage which their husband and father built a year ago.

The victims were Mrs. Mabel Tardiff, 26, and the children, Clara Mae, three; Donna Jean, two, and William, one. The husband and father, Clarence, 27, was at work when the fire broke out. He said his wife and children had been sick in bed when he left for work at midnight. He could give no clue as to the origin of the fire.

Firemen believed the blaze might have started in the rear of the small home and then spread rapidly.

tually they chiefly have the military man's admiration for a successful military machine. And having looked upon us as a nation of precision and power, our present inability soundly and instantly to slap the Japs' ears down, has made some of them think twice regarding our ability to uphold the Monroe Doctrine.

STRONG U. S. SUPPORT

In view of all this, it is a great tribute to Latin American friendship and shows how deeply the Good Neighbor policy has taken root, that the Rio conference starts off with so many bonafide U.S.A. supporters in the bleachers.

First there is Brazil, largest nation in Latin America and 100 percent with the United States. Second are the countries which border the Panama Canal—Nicaragua, Costa Rica, Panama, Salvador, Guatemala, Honduras—which already have declared war on the Axis. Third are the countries bordering the Caribbean—Cuba, Haiti and the Dominican Republic, which also have declared war. Fourth, Venezuela, Columbia and Mexico which are near the Panama Canal and have severed diplomatic relations.

However, with the larger countries away from the Panama Canal it is a more cautious story. Chile, with nearly 3,000 miles of coastline along the Pacific, has seen our own California coast approached by Japanese submarines. So naturally it wonders how the U. S. Navy, too busy to protect its own waters, could possibly defend the distant coasts of Chile.

Finally, there is Argentina, which has seen the Graf Spee come into the mouth of the River Platte, and Argentina is going to be the really tough nut to crack at this conference.

However, Sumner Welles has been doing some careful advance sounding out of Pan American foreign ministers and the prospects for an ultimately successful conference look good. One thing is especially important. No longer do the Pan Americans require a unanimous vote to adopt a definite policy.

Like the old Democratic conventions, hamstrung with the two-thirds rule, the Pan American conferences were frustrated in the past by requiring absolute unanimity. But this rule is now changed, and all the U.S.A. needs is a majority vote to adopt a strong stand against the Axis.

What we will aim for is complete severing of diplomatic relations with all Axis countries. And even if Argentina dissents, this

much, by majority vote, we can get.

JESSE JONES

WASHINGTON — Secretary Jesse Jones, who holds more jobs than any other official in the entire history of the government and who in some respects has more actual power than the President of the United States, has his ambitious eye fixed on still another prize—the biggest of them all.

The soft-voiced, smooth-as-oil operating Texan wants to be boss of the war production machine.

After months of backing and filling, the President has finally decided to put his "pawling, muddling and headless supplies organization under a single director. But the big problem is to find the right man.

He should have drive, courage, vision, great executive ability and physical stamina.

Jones is 68 and has been under hot fire because of alleged delays in getting underway vitally needed war plants and in building up adequate reserve stocks of rubber, tin and other strategic materials whose shortage now is causing the drastic rationing of civilian goods.

Recently, Jones was made a member of SPAB, the top war production agency, on the theory that in this position it would be easier to get his cooperation. How that will work out remains to be seen.

In the meanwhile he is quietly pressing the idea that he should be made the No. 1 man of the whole production organization. He has been flitting around behind-the-scenes on Capitol Hill talking to powerful old buddies there and during Lord Beaverbrook's stay in Washington he entertained and saw a lot of the dynamic British Supply Minister.

Note: Besides being Secretary of Commerce, and a member of SPAB, Jones also is head of the

FIVE FLYERS INJURED IN AIRPLANE ACCIDENT

SAN FRANCISCO, Jan. 14—Five crew members of a two-motored army bomber were treated for minor injuries today, following a crash near Sacramento, Fourth Army headquarters announced.

Three of the flyers, the announcement said, parachuted to safety, while the pilot, Lieut. Wilton B. Maxwell, and his Co-Pilot Lieut. J. B. Rosenkrantz, stayed with the ship and made a successful "crash landing."

Injuries were confined to bruises and lacerations.

Those who bailed out were Lieut. John Banoski and Privates R. E. Donnell and Clarence L. Johnson.

C. of C. Acts to Relieve Court Street Traffic Congestion

'BOTTLENECK' IN NORTHERND TO BE ELIMINATED

Parking North Of Pleasant Street May Be Banned; Committee Set Up

PARALLEL LINES ORDERED

Organization Names Board Of Directors To Serve For Next Year

Circleville Chamber of Commerce began action Tuesday night to cope with problems which may arise with the development of two Army projects within the local trading area, an airport north of Ashville and a cantonment in the southwestern part of the county.

Two committees were appointed, a housing committee, whose duties will be to investigate the possibilities of locating defense workers in the city and a street committee which will recommend that city officials take immediate action to clear North Court Street of congestion in compliance with requests made by the State Highway Department.

Members of the housing committee are Mack Parrett, T. E. Wilson and A. V. Osborn. On the street committee are Harold Limback, Tom Gilliland and W. Joe Burns.

Mayor Ben H. Gordon said Wednesday that state highway officials had asked that Court Street, Route 23, be cleared of congested traffic and bottlenecks eliminated with a proposed road improvement project in view.

Mayor Gordon said he had instructed Service Director Clarence Helvering to paint parallel lines on Court Street as soon as the weather clears. As soon as the parallel lines have been painted, parallel parking will be put in effect and there will be no double parking, the Mayor said. City council already has passed an ordinance providing for parallel parking on Court and Main Streets.

Solution Possible

The mayor indicated that a solution of the Court Street traffic congestion problem might be worked out to the state's satisfaction if parked cars are banned from Court, north of Pleasant Street, and with parallel parking enforced on the remainder of the highway through the city.

Chamber of Commerce members, voted unanimously to sponsor a Corn and Soybean Show again this year. The show probably will be held the latter part of February. The Chamber's agricultural committee is in charge of the program.

Speaker at the meeting was Mrs. Fannie Brooks, county AAA field woman, who discussed the county's Food for Defense program. Mrs. Brooks pointed to the importance of food products in the present war with the Axis. "Food is an important munition. It will win the war and it will right the peace," she declared.

Defending the farmer, who has seen prices for his products rise rapidly since the war, the speaker pointed out that the farmer's share of the consumer's food-dollar was 42 cents. Six cents of the food-dollar goes for transportation, 20 cents for processing, eight cents to the wholesaler and 24 cents to the retailer, she said.

Three new directors will serve on the Chamber of Commerce board for 1942. They are W. Joe Burns, Eldred Cayce and A. V. Osborn. Other directors re-elected were F. K. Blair, R. L. Bremer, T. O. Gilliland, George Griffith, Leslie D. May, Dan McClain, Dwight Steele and Clark Will.

Cynics who said nobody could kick Hitler evidently forgot about one man—namely Hitler.

They Head Revival Service

THE Rev. and Mrs. Eddie Burnum of Gallipolis are appearing at the Church of Christ in Christian Union, Circleville, in a series of revival meetings which started January 11 and will continue through January 25. The Rev. Mr. Burnum is the evangelist and Mrs. Burnum conducts the singing. The Rev. O. L. Ferguson is the host pastor.

Evans Grocery Company To Open Store in City

The Evans Grocery Company, which has its main offices at Gallipolis and operates stores in Ohio and West Virginia, will open a meat, fruit and vegetable market in Circleville Friday at 116 West Main Street in the Clifton Building formerly occupied by the A. & P. Company store.

The store will be operated by R. L. Thompson of Athens who will have charge of the meat department, and by Harlan Richard of Gallipolis who will manage the vegetable department.

The room has been redecorated and remodeled and new fixtures have been installed.

The Evans Grocery Company sends its own truck weekly directly to the fruit market in Florida and offers garden fresh produce from the southern area. It also manages its own packing plant in Gallipolis.

JAMES BOGGS STARTS BASIC FLYING TRAINING

Mr. and Mrs. Ralph Boggs, 430 South Washington Street, have been informed that their son, James, a Flying Cadet in Uncle Sam's Air Force, has been advanced from primary to basic training and has been transferred from Camden, S. C., to Shaw Field, Sumter, N. C., for additional training.

He expects to complete his work by May and then will have to wait until he becomes 21 in June before he can receive his commission.

Promotion from primary to basic training comes after 60 hours in the air.

Young Boggs is a graduate of Pickaway Township High School where he is an all-district basketball star and attended Duke University, Durham, N. C., before joining the air corps.

MOTHER, THREE CHILDREN KILLED IN HOME FLAMES

DEARBORN, Mich., Jan. 14.—A young mother and her three small children burned to death today when fire destroyed the small cottage which their husband and father built a year ago.

The victims were Mrs. Mabel Tardiff, 26, and the children, Clara Mae, three; Donna Jean, two, and William, one. The husband and father, Clarence, 27, was at work when the fire broke out. He said his wife and children had been sick in bed when he left for work at midnight. He could give no clue as to the origin of the fire.

Firemen believed the blaze might have started in the rear of the small home and then spread rapidly.

tually they chiefly have the military man's admiration for a successful military machine. And having looked upon us as a nation of precision and power, our present inability soundly and instantly to slap the Japs' ears down, has made some of them think twice regarding our ability to uphold the Monroe Doctrine.

STRONG U. S. SUPPORT

In view of all this, it is a great tribute to Latin American friendship and shows how deeply the Good Neighbor policy has taken root, that the Rio conference starts off with so many bonafide U.S.A. supporters in the bleachers.

First there is Brazil, largest nation in Latin America and 100 percent with the United States. Second are the countries which border the Panama Canal—Nicaragua, Costa Rica, Panama, Salvador, Guatemala, Honduras—which already have declared war on the Axis. Third are the countries bordering the Caribbean—Cuba, Haiti and the Dominican Republic, which also have declared war. Fourth, Venezuela, Columbia and Mexico which are near the Panama Canal and have severed diplomatic relations.

However, with the larger countries away from the Panama Canal it is a more cautious story. Chile, with nearly 3,000 miles of coastline along the Pacific, has seen our own California coast approached by Japanese submarines. So naturally it wonders how the U. S. Navy, too busy to protect its own waters, could possibly defend the distant coasts of Chile.

Finally, there is Argentina, which has seen the Graf Spee come into the mouth of the River Platte, and Argentina is going to be the really tough nut to crack at this conference.

However, Sumner Welles has been doing some careful advance sounding out of Pan American foreign ministers and the prospects for an ultimately successful conference look good. One thing is especially important. No longer do the Pan Americans require a unanimous vote to adopt a definite policy.

Like the old Democratic conventions, hamstrung with the two-thirds rule, the Pan American conferences were frustrated in the past by requiring absolute unanimity. But this rule is now changed, and all the U.S.A. needs is a majority vote to adopt a strong stand against the Axis.

What we will aim for is complete severing of diplomatic relations with all Axis countries. And even if Argentina dissents, this

much, by majority vote, we can get.

JESSE JONES

WASHINGTON — Secretary Jesse Jones, who holds more jobs than any other official in the entire history of the government and who in some respects has more actual power than the President of the United States, has his ambitious eye fixed on still another prize—the biggest of them all.

The soft-voiced, smooth-as-oil operating Texan wants to be boss of the war production machine.

After months of backing and filling, the President has finally decided to put his "pawling, muddling and headless supplies organization under a single director. But the big problem is to find the right man.

He should have drive, courage, vision, great executive ability and physical stamina.

Jones is 68 and has been under hot fire because of alleged delays in getting underway vitally needed war plants and in building up adequate reserve stocks of rubber, tin and other strategic materials whose shortage now is causing the drastic rationing of civilian goods.

Recently, Jones was made a member of SPAB, the top war production agency, on the theory that in this position it would be easier to get his cooperation. How that will work out remains to be seen.

In the meanwhile he is quietly pressing the idea that he should be made the No. 1 man of the whole production organization. He has been flitting around behind-the-scenes on Capitol Hill talking to powerful old buddies there and during Lord Beaverbrook's stay in Washington he entertained and saw a lot of the dynamic British Supply Minister.

Note: Besides being Secretary of Commerce, and a member of SPAB, Jones also is head of the

FIVE FLYERS INJURED IN AIRPLANE ACCIDENT

SAN FRANCISCO, Jan. 14.—Five crew members of a two-motored army bomber were treated for minor injuries today, following a crash near Sacramento, Fourth Army headquarters announced.

Three of the flyers, the announcement said, parachuted to safety, while the pilot, Lieut. Wilton B. Maxwell, and his Co-Pilot Lieut. J. B. Rosenkrantz, stayed with the ship and made a successful "crash landing."

Injuries were confined to bruises and lacerations.

Those who bailed out were Lieut. John Banoski and Privates R. E. Donnell and Clarence L. Johnson.
